

SAHE Products Launches Wobble Cushion

January 24, 2019

January 24, 2019 - PRESSADVANTAGE -

SAHE Products in Irving, Texas, has announced the launch of a new product onto the Amazon marketplace. The company states that their new wobble cushion or workout disc is now available for purchase and says that it offers a number of benefits to users.

The wobble cushion can be seen on Amazon at [. A representative for the company says, ?This disc is made to last. We use the most durable materials and design it to withstand weights of up to 350 pounds.?](#)

Balance massage boards are used in a number of ways for workouts, training and rehabilitation. They work by helping the user to learn balance and stability. Many trainers recommend using a balance product to work the core, which in turn helps the user to improve coordination and posture. Balance cushions or wobble cushions are typically round discs that have a surface on one side that does not slip and another side that features a textured bumpy surface.

Trainers and fitness experts claim that these devices help to develop core strength and can improve energy levels. They reduce physical instability and in turn, lower pain and fatigue in the user while also promoting lean and tone muscles. They have been used widely by those looking to lose weight and have been used by teachers and parents of children with special needs as they can help to calm the child and assist them in

concentrating and focusing on the task at hand.

?Our wobble cushion is 26 inches in area, so it is perfect for any number of needs,? says the company representative. ?It offers the right space for using in workouts and trainings and any number of other purposes.?

SAHE Products states that those who are interested can now find the new wobble cushion on Amazon. The cushion comes with pump to inflate the device and is available in a number of different colors. The company states that they are pleased to be offering this new product, as it goes along with their goal of providing only the highest quality of products to their customers.

SAHE Products is a small, family owned and operated business that offers a number of household and consumer products, typically for sale on the Amazon marketplace. They state that all of their products are designed to promote overall green in homes, and they state that they only offer products that are safe for families and the environment.

Their line of products that are currently available on Amazon include the new wobble cushion, as well as a number of kitchen products that range from wooden kitchen utensils and bamboo cutting boards to water bottles.

The company states that they remain dedicated to their customers and work to ensure that the products that they offer are all environmentally friendly and provide a benefit to those who use them. The company says that they thoroughly examine any new products prior to putting them in their Amazon store to ensure that they offer some use to customers and that they are something that customers will appreciate. The company?s Amazon page, which can be accessed at <https://amzn.to/2FJUtdu>, features their new wobble cushion as well as an entire list of the products that they currently have for sale.

Consumers who are interested in learning more about the new workout device and the benefits that it can provide to them can do so on the Amazon listing for the new wobble cushion. Those who are interested in learning more about any of the products that are currently offered by SAHE Products can visit them on Amazon to get a look at all of the consumer items that they currently have available. The company states that they are always available to answer questions by phone or email and those who are interested can also see testimonials on all of the products that the company has for sale by reading through their various reviews on the Amazon marketplace.
