

Care Me Unveils Their Highly Acclaimed Electric Callus Remover

July 08, 2015

July 08, 2015 - PRESSADVANTAGE -

Care Me, a health and beauty company in Norcross, GA, is proud to announce that their recently launched electric callus remover has been very positively received. Indeed, it has been literally flying off the shelves and some overwhelmingly positive reviews are being left. It is hoped that people will continue to use the product and help them to achieve beautiful and soft feet.

"As people once again start wearing flip flops because summer is here, they will also notice that they start to build more calluses," says a representative from Care Me. The representative adds, "This can be very uncomfortable, particularly if a callus splits. Our electric callus remover addresses the hard skin that causes these issues, ensuring people can once again walk comfortably."

The device is incredibly powerful as it uses a strong rechargeable battery. This also means people save money because they don't have to buy new batteries all the time. Furthermore, it comes with two different rollers to be able to address even the hardest callus. It is waterproof and has been designed for easy cleaning, so that it is very hygienic. This is because the company has focused on creating a device that fully serves its purpose.

Ever since its release, the reviews have been coming in very quickly and it seems that this product could soon become the most popular of its kind on Amazon. Some reviewers have even created videos on YouTube to describe how they have used it and what benefits it has offered them. One customer says, "I found this electric callus remover very easy to use and great at removing hard skin gently but efficiently. I could see positive results after using it for the first time. I have been using it regularly since then and my feet are now callus and hard skin free for the first time in years."

Care Me is also encouraging people to visit the company website and to sign up for the mailing list. Doing so will give them a voucher that can be applied to their electric callus remover purchase. It can also be used to purchase replacement rollers for the device.
