Cooking Supplies Magazine Publishes Charcoal Grill Reviews For 2019

January 24, 2019

January 24, 2019 - PRESSADVANTAGE -

Kitchen Guy'd, an online magazine that serves as kitchen guide, has announced that they have just published a review indicating their choice for the top 9 charcoal grills for 2019. The review article includes their suggestions for the best charcoal grill for producing restaurant quality barbecues, the best budget charcoal grill for beginners, and in-depth charcoal grill reviews.

Guy Martini, the person responsible for Kitchen Guy'd, says, "I am happy to announce that we have just published our reviews of charcoal grills for 2019. I am here to help you get the nuances of cooking food, taking care of your appliances, making the right purchases and making sure you do not catch flame in the process. I publish a new article every two weeks and cover everything, from buying guides, tips on how to take care of your kitchen gear and even lip-smacking traditional recipes with a twist. In short, this is your one-stop for everything that's kitchen."

In the review article, Kitchen Guy'd chooses the Weber 15501001 Performer Deluxe Charcoal Grill for those who love to cook barbecues. This is because it is easy to clean and use while providing restaurant quality grilled food. Meanwhile, for those are still new with grilling and want something more affordable and compact,

the ideal choice according to the article is Weber 14402001 Original Kettle Premium Charcoal Grill.

In the in-depth reviews of the cooking supplies magazine, the best charcoal grill for 2019 is Weber 15501001 Performer Deluxe Charcoal Grill. This is appropriate for that outdoor barbecue with family and several guests because it has a large cooking space of 363 square inches. It is also provided with a 22-inch porcelain-enameled bowl which allows the user to sear the meat perfectly and get those desired charred grill marks. To allow cooking a perfectly grilled steak or lamb rack or simply vegetables, the Weber 15501001 has easy temperature control and monitoring with its accurate built-in thermometer and removable LCD timer.

In second place in the top 9 charcoal grills is the PK Grills PK99740 Original Grill and Smoker. This features a lower price, retro grill design, cooking efficiency, rust resistance, and the fact that it is lightweight and portable and can be brought along during camping trips.

In third place is the Weber 14402011 Original Kettle Premium Charcoal Grill, which has been chosen also as providing the best value for money. According to the article, it is the best choice for minimalists. Its simple design makes it easy to clean and it also has a compact size at 22 inches in diameter, which means it can be brought along during camping trips and it is also easy to store. This is also why it is the recommended grill for beginners.

Aside from charcoal grills, Kitchen Guy'd magazine provides reviews and guides on various cooking supplies and kitchen appliances. As such, they have provided guides on the best convection microwave oven, best stand mixers, best electric griddles, best rice cooker, best personal blender for smoothies, best 4 slice toaster, best power pressure cooker XL, best hand mixer, best cast iron skillet, best food dehydrators, best coffee makers, best electric smokers, best propane smokers, best barbecue grills, and best freestanding grills.

The Kitchen Guy'd also provides guides on other kitchen essentials such as best kitchen faucets, best water coolers, best under sink water filters, best tower fan, best chest freezers, and best gun safe.

Guy Martini points out that he is constantly seeking support and recommendations on how to improve the Kitchen Guy'd so he is always asking people to reach him with their suggestions. On the Kitchen Guy'd website is a "reach me" page where people can provide some comments or make some suggestions.
