Digital Marketing Agency In Los Angeles Celebrates Second Year Of Partnership With General Contractor

June 11, 2019

June 11, 2019 -

Los Angeles, CA: Emet Digital is delighted to announce that they are celebrating the second year anniversary of their partnership with Bright Builders General Contractor. ?It was a pleasure working with Bright Builders, one of the top general contractors in Los Angeles, to leverage the power of the internet to reach their potential customers. We did this by helping them provide details of their services online, along with their unique capabilities and values,? stated Maytal Gilboa, CEO of Emet Digital.

Gilboa also elaborated on Emet Digital?s role as a company, explaining that " we develop unique strategies for each of our clients to help them grow and put their biggest goals within reach." Emet Digital offers their services clients nationwide in virtually every arena of industry no matter the size, utilising the internet?s vast reach to help clients reach potential customers, wherever they might be across the globe.

Bright Builders, like many general contractors, compete for leads alongside the rest of the construction sector. In a highly competitive industry, professionalism is critical, and it takes hard work to stand out from the crowd. Emet Digital customized a strategy to craft content that would allow visitors to emotionally connect with their vision for home renovation. Before launching their website, Emet Digital devoted months to web

development and consumer research. This allowed them to optimize the website for mobile users, as well as a variety of search terms.

Emet Digital CEO - Maytal Gilboa reaffirmed the company?s focus on pairing businesses with prospective customers, explaining that Emet Digital, a leading Digital Marketing Agency in Los Angeles, provides a full range of digital marketing services to develop, execute, and optimize their customized approach for every client?s needs. This includes web development, graphic design, Search Engine Optimization (SEO), Pay-Per-Click (PPC), reputation management, lead generation, google ads, social media, email marketing, content marketing, video production and display advertising. ?As your partners, our role is to seamlessly complete the marketing puzzle. Our unique, holistic strategy prioritizes sustainable growth at every turn,? asserted Gilboa.

Emet Digital places lead generation at the heart of their client services. Every business faces unique challenges along the path to sustainable, scalable growth, and Emet Digital utilizes both paid and organic techniques to help their clients meet those challenges head on. Whether marketing directly to consumers or between businesses, the agency offers personalized attention and unique insights that produce incredible results.

Unlike other lead generation agencies, Emet Digital is less interested in relying on the same old strategies that produce low-quality leads than in their commitment to pushing boundaries and truly putting in the work to ensure success. For each client, the highly competitive agency examines the landscape of their industry in order to offer fully-integrated marketing and sales solutions. Emet Digital have the capability and strength to handle all their clients? marketing needs or, if they prefer, work in collaboration with their in-house team or third-party subcontractors.

Nicol G., from Los Angeles, CA, gave Emet Digital a 5-star review on their Yelp Page: ?Micky and Maytal are the best! They keep overperforming on their promises. Last June, they worked with us to define specific goals for our business. We've been working together as a team to meet those goals and so far, it?s been working great! They keep me and my staff accountable and have really pushed us to be the best we can be in terms of our customer service and online reputation. It's clear that they have a deep understanding of marketing and what customers want. I truly feel that they are invested in my business?thanks guys!?

Those looking for more information may contact Maytal Gilboa, of Emet Digital. Visitors to their main website can find contact information, call directly to their office (with supported devices), or fill in an online form to inquire about other services. Those interested may also connect with Emet Digital?s social media channels. The company maintains a presence on all the key marketing platforms, including Facebook, Instagram, LinkedIn, Twitter, and Yelp.
