

Commercial Cleaning Company Prepped To Clean Up North Sydney

January 26, 2019

January 26, 2019 - PRESSADVANTAGE -

North Sydney, NSW based Commercial Cleaning Company (CCC) is pleased to announce that they have opened an office in North Sydney to provide commercial and office cleaning services to clients in the Sydney Central Business District and surrounding areas.

Led by a managerial team boasting over 10 years' experience, the company provides Office Cleaning, Strata Cleaning, Childcare Cleaning, Pub Cleaning, Retail and Warehouse Cleaning, and more throughout the areas which are highlighted here <https://goo.gl/maps/ooBgZ8nGx7m>. The Commercial Cleaning Company is always happy to answer inquiries regarding the availability of their services throughout Sydney.

Sydney's Central Business District is Australia's main financial and economic centre, as well as a leading hub of economic activity for the Asia-Pacific region. Sydney's city centre is a pivotal point for nightlife and entertainment of all kinds. Due to the sheer number of people and the significance of some of the iconic buildings and structures, it is extremely important that every business takes its cleaning seriously, while giving its staff, customers, and visitors a safe and clean environment that they can enjoy.

To ensure high-quality cleaning services, businesses must decide whether they hire an in-house cleaning crew or bring in a commercial cleaning service. Both options can help ensure their premises are clean and hygienic for both staff and public use. However, for most businesses, recruiting, training, scheduling, and all the administration involved for in-house employees diverts attention and focus away from their key customer service and revenue building activities.

The Commercial Cleaning Company offers a 24/7 cleaning service to match any commercial cleaning requirement, without interrupting their client's working day. They take pride in ensuring that their quality-control standards and staff are the best in the industry. This plays a large part in their ability to provide a customized service to cater to their clients' needs regardless of the size of the office or business, or how frequently they need to be cleaned. Furthermore, customers can get a free quote directly from the website at <https://commercialcleaningcompany.sydney/>.

One of the services that CCC offers is Strata Cleaning, which is a specialized kind of cleaning meant for large buildings, and expensive and luxurious residential complexes with shared ownership for certain areas. Typical Strata Cleaning services include specialist types of cleaning on a very large scale, such as window cleaning, vacuuming common areas and foyers, as well as mopping hard surface flooring, public toilets, and so on.

Many Australian cleaning companies don't employ cleaners directly, instead choosing to outsource to third-party contractors who may use inexperienced staff, sometimes even hired on low wages. Due to low wages and other similar issues, these third-party contractors often have high staff turnover, which can result in poor client service, such as omitted cleaning sessions and inconsistent cleaning quality. This predictably causes problems for customers whose day-to-day schedule requires a reliable, high quality service.

"At the Commercial Cleaning Company, we consider our customers part of our ever-growing family. We provide a dedicated supervisor to manage each client's account to ensure that any issues or emergencies can be dealt with efficiently," said David Tran of the Commercial Cleaning Company.

Every client site is inspected on a regular basis to make sure that the high-quality standards expected are delivered to clients using the company's strong network of professional, trustworthy, and skilled cleaners. CCC strives to make certain that all cleaning supplies brought to client workplaces are checked, maintained, and refilled as required for cleaning, allowing them to minimise delays in their workflow.

George Anarius had this to say about their service: "CCC has been a reliable cleaning service for us. It's so refreshing to finally find a cleaning company which delivers on its promises. You do a great job for us, keep up the great work."

For more information, please contact David Tran, Commercial Cleaning Company, Sydney, NSW. Contact information can be found on their website, where visitors can also call directly or fill in an online form to inquire about services.
