

Why Customers Prefer the EX-25 Electric Stapler Over Swingline

January 25, 2019

January 25, 2019 - PRESSADVANTAGE -

With office jobs on the rise, it is no surprise that workers are turning to electric staplers and pencil sharpeners to assist them during the day. There are many different brands and prices to choose from when deciding which electric stapler to purchase, more and more shoppers have begun steering away from large brands and choosing small-family owned ones as they offer competitive pricing, customer care, and performance.

The once very popular Swingline electric stapler is said to not compete with the EX-25 electric stapler by EcoElectronix. Customers on Amazon who have reviewed both the staplers and finding the EX-25 to be the best electric stapler as it last longer and has better performance. When reviewing the EX-25 one customer wrote, "Best stapler ever. I know something about staplers. My employees and I use them extensively. We have been using and have been VERY disappointed with Swingline, but because of brand recognition continued to purchase them, even though they were disappointing. Enter EX-25 ... WOW FAR EXCEED the Swingline and all our expectations. Great stapler, these folks are the best and their stapler is far superior to anything else out there and the price is very reasonable. You owe it to yourself to get one of these NOW!?"

EcoElectronix prides themselves in creating high-quality products that last at affordable prices. The EX-25 is

\$39.73, but it also includes a lifetime warranty, meaning that if at any time the stapler breaks, is defective, or damaged, EcoElectronix will send a brand new replacement out within 24-hours without hassle.

The Swingline stapler does not have a lifetime warranty, and many customers have found their stapler breaks once the warranty is up. An Amazon customer reported three of his staplers having problems after the warranty mark. ?Over the course of 6 years, at my own expense, I purchased 3 heavy duty Swingline staplers. Each worked fine at first but then there were issues with each of them. Each was past the 2-year warranty. I felt like I had to have a back up because I wasn't confident that the stapler would ?make it through the week?. I've only had the EX-25 a short time but so far so good. Stapling is clean and solid. No jams at all.?

Oftentimes Swingline staplers can be very loud and disruptive to office environments, however, customer Neant has found the EX-25 to be much quieter. ?The EX-25 works great. Not as loud as Swingline SpeedPro 45, and looks more durable than the cheap ones.?

EcoElectronix is a small family owned business that sells exclusively through their website and Amazon. The EX-25 electric stapler is made with impact-resistant ABS material and sustainable environment-friendly manufacturing practices. The company also donates a portion of their sales to environmental charities including, Rainforest Alliance and Earthjustice.

To purchase the EX-25 readers can visit Amazon.com where it is available in both black and white and with free two-day shipping for Prime members.
