

Sahe Products Introduces Baking Mat In UK And Europe

January 31, 2019

January 31, 2019 - PRESSADVANTAGE -

Sahe Products, a consumer products business based in Irving, Texas, has announced that they have released their non-stick silicone baking mat on Amazon UK, allowing people from the UK and Europe to use this product. Included with the baking mat is a basting brush, which can be used for macaron, pizza and cookie baking. The baking mat offers the advantage of allowing baked goods to be cooked evenly all the way through because unlike metal pans, it does not retain heat. This silicone mat's important benefit is that food does not stick to it even without greasing it, unlike metal pans. Those who want to get more information on this can visit their Amazon page at <https://amzn.to/2RJL9gN>.

H Misra, spokesperson for Sahe Products, says, "We are happy to introduce our silicone baking mat to the UK and the rest of Europe. This product allows people to go green because they no longer need to grease their metal baking pans and there is no need to use parchment paper. Furthermore, this means that baked products are healthier because there is no need to use oil or grease. This silicone baking mat is certified to be BPA free and instead is made of materials that have been certified by the FDA and the LFGB."

Some of those who have already tried using the baking mat have had positive things to say about it. For

instance, one Amazon customer said, "Absolutely love it. Don't know why I've been spending money on "Pam" spray all this time. What a time saver for cookies, rolls, etc.... Clean up is so easy. Just wipe off the baking mats and put the cookie sheet away. I actually need more! They will be on the next order."

Aside from the baking mat, Sahe Products has other products released for UK and the rest of Europe. One of these is the bamboo kitchen ladle set made up of four pieces with bamboo handles. Each piece has been hand carved from bamboo and then polished with safe food oil to minimize friction and damage to the ladle and the pot or pan. Each piece has a hole on one end to allow for hanging and easy storage. No glue or adhesive was used to ensure that no toxic materials can get to the food. Those who want more information about this can visit the Amazon page <https://amzn.to/2CE6gXt>.

And because these are all made from bamboo, the handle never gets too hot, thus allowing the user to avoid being burned. This bamboo ladle set is also unaffected by high temperature and is durable and will not deform nor crack. This set has been assured to be of commercial quality so that it can be used in food shops, restaurants, and catering. It has been found to be suitable for cooking various meals like soups, casseroles, sauces, oatmeal, and many more. And just like with the silicone baking mat, this bamboo kitchen ladle set is environment-friendly.

Another product introduced by Sahe Products to the UK market is their tea infuser bottle. It is designed for those who love to travel and it is provided with a removable tea infuser strainer to allow the use of loose leaf tea. This also allows its use as a fruit infuser water bottle, allowing the user to take advantage of the health benefits of drinking fruit infused water. Those who want more information about the tea infuser can visit the Amazon page <https://amzn.to/2TaS8My>.

This portable sport glass water bottle has been ensured to have no leakages, which makes it ideal for travel, the gym, outdoor activities, and many more. It is also provided with a neoprene sleeve for easy carrying. Furthermore, it has been provided with enhanced insulation to ensure that the other wall will always be cool to the touch, even if the bottle contains hot beverages like tea or coffee. They can also be reached at support@saheproducts.com.
