

Sahe Products Announces New Item: Barbecue Tongs

January 29, 2019

January 29, 2019 - PRESSADVANTAGE -

Sahe Products in Irving, Texas, has announced the launching of their new product, silicone stainless steel kitchen tongs, in Europe. The company's products are currently offered for sale on Amazon Marketplace and include a number of kitchen items from water bottles and wooden kitchen utensils to bamboo cutting boards and more. Sahe's office, at 524 Santa Fe Trail in Irving is proud to provide their new kitchen tongs and other products to customers.

H. Misra of Sahe Products, which is a family owned and operated business, says, "We have been offering quality cookware in the kitchen for over 5 years. Our primary focus is promoting premium products made with premium materials with an economically efficient process." He says that their items are also offered on the Amazon UK site along with various other products that are designed for home use. They offer only products that are friendly to the environment and that provide a benefit to their customers. Misra states, "We only provide products that our customers will use and appreciate and that help them significantly in some way."

Amazon Marketplace is an e-commerce platform owned and operated by Amazon that enables third-party sellers to sell new or used products on a fixed-price online marketplace alongside Amazon's regular offerings. So the sellers gain access to Amazon's customer base, and Amazon expands the offerings on its site without having to invest in additional inventory. Amazon Marketplace charges a fee for their service when something

from a seller's site is sold. Typically it is a percentage of the item that is sold.

Sahe's new kitchen tongs are featured on their Amazon Marketplace website at <https://amzn.to/2FOPid9>. The tongs have some unique features. They include a built-in stand that protects the tongs from bacteria so the tongs can be put down anywhere without worrying about making a mess. The stand keeps everything hygienic while cooking. The tongs are easy to clean which also helps protect them from bacteria. The scissor head locks the tongs easily for storage and allows them to be hung on the wall.

The non-stick silicone handle grips help to serve the food easily. The tongs help with cooking and serving BBQ because they can stand up to high heat. They are safe to use in the oven, dishwasher, microwave, and freezer. They have a soft grip and spring mechanism that holds onto food easily even when they are greasy. They come in 9 And 12-inch sizes. And they are available in blue or red colours.

Misra says that their Amazon listing pages have a number of positive testimonials from customers that have used and fully appreciate the quality of their products. Lynn de la Torre gave a 5 out of 5 stars to the tongs. She said, "This is a great product! Love the fact that that there are 2 different sizes." And 77Pearls also gave a 5 out of 5 stars to the product. She said, "Exactly what I wanted for cooking on my stove. I always hated getting food on the surface & didn't like the thought of cross-contamination from my counters."

The company also sells a variety of other products on the Amazon Marketplace. They have a 1-piece bamboo cutting board for kitchen use. They also offer a hard plastic whistle which can be used for refereeing, coaching, life-guarding, and more. They even have a stainless steel vacuum water bottle that can be used in the gym, office, home, park, etc.

H. Misra's SAHE Products company has been a leading seller of kitchen products on Amazon MarketPlace for the past three years. Those who are interested in learning more about their products can do so by reading through some of the reviews on any of the company's listing pages or on their official Amazon seller's page. They may also call the company's office in Irving, Texas or reach out to them at support@saheproducts.com.
