Banja Luka Invisalign Expert Offering Discount on Zoom! Teeth Whitening

January 26, 2019

January 26, 2019 -
Dr. Jovana Glusac, a Banja Luka invisalign Expert and orthodontic provider, is running a special on Zoom! teeth whitening for his patients at Aesthetic Orthodontics.

Banja Luka, Bosnia and Herzegovina, January 19, 2019 -- Dr. Jovana Glusac, Banja Luka invisalign expert, is offering her patients ZOOM! teeth whitening for a finishing touch on orthodontic treatment, and it is more than half off regular price through February 28.

A complete in-office treatment with an additional home bleaching maintenance kit with custom fit trays and whitening gels regularly costs $310, but for a limited time only, braces specialist Glusac is offering the treatment for $150.

The ZOOM! teeth whitening procedure, which is a 60 to 90 minute treatment, gets smiles looking their best again after lifestyle choices and aging take their toll on teeth. Stains can be caused by drinking coffee, tea, cola and red wine or using any tobacco product, according to the American Academy of Cosmetic Dentistry. Lax dental hygiene and neglecting routine exams and professional cleanings can result in stained teeth as

well.

"One of the benefits of ZOOM! is that there is less reported tooth sensitivity compared to other types of whitening procedures," said Glusac, who is also the provider of Banja Luka braces. However, patients with tooth sensitivity should discuss whether ZOOM! is the best option for teeth whitening prior to receiving treatment.

For best results, patients need to follow the post-whitening dental care instructions, which are to brush twice daily, floss once a day, and see their dental care provider for biannual dental checkups and cleanings. Avoiding the foods, drinks and products that caused the staining in the first place or rinsing with water and brushing teeth afterwards can prevent those stains from building up on the tooth's enamel again.

"My patients love that ZOOM! is fast, long-lasting and effective. It is the crowning touch on their beautiful new straight smile," said Glusac, who is also a Banja Luka TMJ dentist.
