

Massage Therapy Chilliwack - What Differentiates Reclaimed Massage Therapy?

## **Chilliwack BC Registered Massage Therapist Clinic Reclaimed Health Group Launches New Video Addressing Most Frequent Questions By Patients About Direct Billing & Their Unique Competitive Advantage Amongst Chilliwack RMTs**

*January 28, 2019*

January 28, 2019 - PRESSADVANTAGE -

Chilliwack, BC ? Reclaimed Massage Therapy, Health and Wellness Group launched a new video answering the one question always asked by patients, along with their unique competitive advantage amongst other RMTs in Chilliwack, BC. This video will meet the needs of future patients looking for a reputable and trusted Registered Massage Therapist clinic for treatments.

Registered Massage Therapist and Clinic Manager, Michelle Brown, reveals that almost all new patients ask about Direct Billing, which Reclaimed Massage Health Group offers, as compared to many Chilliwack massage therapy clinics that do not provide this convenience to their patients. As Reclaimed Health Group

boasts about being a patient-focused clinic, offering direct billing affords their patients to have more frequent treatments without paying out-of-pocket and to be able to follow their treatment plan as recommended by their RMT.

Reclaimed Health Group offers direct billing to many extended health companies, including Pacific Blue Cross and Telus Health eClaims (which includes Manulife, Sun Life Financial, Great West life, Desjardins Insurance, Johnson, Johnston Group, iA Financial group, Chambers of Commerce Group Insurance Plan, CINUP, Cowan, Manion, First Canadian Insurance Corporation Benefits, Group Health Benefit, Maximum Benefit and Group Source.)

Brown also shares about their Competitive Advantage in this video, which includes their relaxing environment and their online booking system which allows patients the convenience and freedom to self-book their appointments and recurring treatments.

?I want our patients, and also our practitioners, to enjoy our beautiful and inviting environment, as compared to walking into a sterile medical-type clinic. Even though we are medically-based, we do want our patients to relax before and after their treatments,? shares Michelle Brown, Clinic Manager of Reclaimed Health Group. ?That?s also why we chose warm colours and tones in our space, created a comfy cozy waiting area and offer a coffee bar so our patients can unwind from their day, to relax and to take a moment for themselves before going into their treatment. And our patients love the freedom and convenience to self-book their treatment dates in our online booking system from the comfort of their home or office. It?s a game-changer for us.?
