

Commercial Cleaning Sydney Company Launched To Serve The North Shore

January 30, 2019

January 30, 2019 - PRESSADVANTAGE -

Sydney, Australia based Commercial Cleaning Sydney Co has announced that it has successfully grown its team of cleaners from 4 to 20 cleaners in the last year. Commercial Cleaning Sydney CO offers the entire spectrum of cleaning services ranging from single office cleaning to small business through large corporates with multiple locations.

Visitors can request a free quote on specialist services to suit their needs via the website. "Whether it is a one off clean, a somewhat irregular service, or needed twice a day, we endeavour to meet our client's needs to the best of our ability," said David Tran.

Many cleaning companies in Australia, outsource their work to third-party contractors with inexperienced staff on low wages. This causes high staff turnover which causes many issues like missed cleans and inconsistent quality on cleaning. This results in serious problems for customers. On the other hand Commercial Cleaning have taken a different approach, by investing in staff training, increasing staff retention, utilizing modern cleaning technology, working closely with suppliers and continually reviewing their processes. All staff are fully trained and have background checks completed, to ensure customers receive the strict safety and hygiene standards they expect. Commercial Cleaning Sydney Co has fully insured operations with Public Liability Insurance and Worker's Compensation.

Special services like commercial kitchen cleaning for medical centres, childcare service, gyms, construction cleaning and also a full range of office cleaning services are offered by Commercial Cleaning Sydney Co. Highlighting on the services, the CEO Mr. Tran said, "We started Commercial Cleaning Sydney Co to deliver a high-quality cleaning solution, we use modern cleaning practices and technology, this helps to keep our prices competitive."

Commercial Cleaning Sydney Co understands that their customer's offices need to reflect their professional image, therefore, they provide cleaning services which will help keep employees healthy, as well as enhancing the presentation of the business to clients. "Medical centres which need to ensure all surfaces are

properly sanitized after every clean, can rely on our cleaners to follow the strict safety and hygiene standards," says Tran.

Every successful restaurant and hospitality business owner knows that a stringent cleaning regime is essential. Commercial Cleaning Sydney Co provide fully trained hospitality and restaurant cleaners that will help ensure compliance with NSW OH&S requirements. This compliance is for the entire service range, from Commercial Kitchen Floor Cleaning, Kitchen Equipment cleaning to Vent, Hood and Kitchen Exhaust Cleaning.

"Our team of construction cleaning specialists have a vast knowledge about the materials and chemicals required to safely clean after a remodel or new build. Heavy duty vacuums to get all the dust out, to stringent chemical solutions to get paint residue out of every kind of surface, we can take care of the mess," says Sarah, a member of the cleaning crew. Commercial Cleaning Sydney Co reaches any client within 24 hrs of client getting in touch with them which ensures tight deadlines are met.

The company has more than a decade experience cleaning childcare centres. They use their experience and expertise to ensure that all needs and regulations for preschools, daycare or childcare centres are met, complete with ongoing quality checks by site supervisors.

Commercial Cleaning Sydney Co has also garnered over two decades of experience on cleaning Gyms and fitness centres. Gyms should keep watch on not having foul smelling and sweat covered equipment. Commercial Cleaning Sydney Co with their comprehensive gym cleaning programmes meet the stringent requirements of members, for disinfection and odour control.

Time and commitment has been invested into only using environmentally friendly and nontoxic products. Clean mops are used every time, and separate mop heads are used for toilets to eliminate cross contamination. Vacuums have filtrations systems to clean the air and lock in allergens.

Commercial Cleaning Sydney Co are open 24 hours a day, and they service all the suburbs of the Sydney area, including those in Inner West, Eastern suburbs, Northern Beaches, Canterbury-Bankstown, St George & Sutherland, and North Shore.
