

Spring Warning For Rodent Control In Sacramento

February 02, 2019

February 02, 2019 - PRESSADVANTAGE -

Sacramento, CA based Aantex Pest Control Norcal is responding to an outbreak of rat infestations in 2018 by stepping up its services to property owners across Northern California. "Rats flourished in 2018, and are invading properties across most of California. With a warm winter, and spring around the corner, we expect rat infestations to increase, so it is important that property owners take action now," said Jim Wood of Aantex Pest Control Norcal.

Aantex Pest Control Norcal are a Sacramento Rat Exterminator and pest control service provider who have served California since 1974. The company has been active in many cities, including Sacramento, Rocklin, Roseville, Granite Bay, Carmichael, Loomis, Folsom, Fair Oaks, Orangevale, Citrus Heights, South Sacramento, Elk Grove, Laguna, and other major cities.

Many homeowners don't realize that even a relatively small pest problem can cause serious health issues. They can contaminate any food materials left out in the open, as well as every surface they touch. Pests are carriers of many dangerous diseases, some of which can even be fatal. "Many property owners have experienced damage from cables to electrical wiring and even stucco, proving that rats will eat just about anything," said Wood.

Two species of rats responsible for the homeowners's new headaches are the roof rat (smaller build, pointed nose, larger eyes and a longer tail in proportion to their body), and the Norway rat (which are typically heavier and have a blunt nose and relatively smaller eyes and ears). Both species can have several litters of young per year. These species are why Rodent Control Sacramento is important to so many customers.

Any building in which food is prepared or stored needs to ensure that they have the proper pest control in place. This includes schools, restaurants, hospitals, warehouses, offices, and storage areas. Rats can contaminate food and animal feed, and can transfer salmonellosis, leptospirosis, and other diseases. They can also carry fleas, ticks, and mites which can further infect homes in other unpleasant ways.

Some property owners think all they need to do is to put out some traps or poison to control rats, noted Wood. We always recommend calling in a professional, as it is important to remove and dispose of the carcasses properly as well as cleaning up any feces and urine.

Michelle Nott gave Aantex Pest Control Norcal a 5-star review on Google: I have been a customer of Aantex since 1996. Their staff and technicians are very knowledgeable and friendly. I always recommend them whenever someone is looking for a pest control company.

Heidi B. from Carmichael, CA also gave Aantex Pest Control Norcal a 5-Star review on Yelp: This is a great company. They are professional, reliable, and do a great job of keeping my bugs out. I do a bi-monthly service, and I always make sure to call them and ask to let me know when they're going to be out then they show up and do a great job. Everyone is super friendly and helpful. I had an issue with one of my back gates and one of the pest control techs fixed my back gate for me on his own. Little acts of random kindness like that are truly appreciated, beyond their normal services. I highly recommend this company to anyone trying to keep the critters out.

Aantex Pest Control Norcal have over 40 years' experience delivering the best pest management services, including Rodent Control and Exclusion, Bed Bug Extermination and Prevention, Spider and Black Widow Control, Ant Control, Roach Control, Flies, Flea Control, Bees, Hornets or Wasps in structure, Silverfish, Scorpions and many others.

We are property Managers of an 80 unit complex and have recently switched our pest control services to Aantex, said Bill Carrara, giving the leading Rat Control Sacramento company another 5-Star review. We are very pleased with the results, and are getting very positive feedback from our tenants. The office staff and technicians are extremely competent, professional, and a joy to do business with. We give Aantex 5 out of 5 stars overall. We gladly recommend Aantex to anyone with pest issues.

Those looking for more information may contact Jim Wood of Aantex Pest Control Norcal. Visitors to their
