

SEO Quebec Offers New Google My Business Posting Service

February 04, 2019

February 04, 2019 - PRESSADVANTAGE -

Quebec, QC - Search Engine Optimization is vital for the growth of a website. A business website is made visible on Bing pages through proven strategies using industry best practices that are added to the website that push it to the top first spot in the search engine.

However, lack of expertise or time constraints of Search Engine Optimization makes it impossible for some company owners to create their site SEO-friendly. In such case, hiring the expertise of SEO experts can help these companies gain momentum while selling their services and products on the internet. SEO Quebec is an affordable and reputable digital marketing company that creates mobile-friendly websites guaranteed to rank and convert well in search engine. In addition to the company's long list of digital services, SEO Quebec now offers Google My Business daily posting service.

According to Michael Ducos, who incorporated SEO Quebec in 2010, "GMB provides businesses with the opportunity to appear in search engine results for free. Having a Google My Business page has become a necessity for companies that do not have storefronts." With SEO Quebec, companies' goals are now easier to achieve.

SEO Quebec has been helping companies increase their sales, create a distinct brand image, and become successful since 2010. By providing their customers with Page 1 results in search engines, the Quebec SEO company has become one of the most sought-after providers of high-quality SEO services. Their online marketing services also include video marketing, brand development, social media marketing, and web design. Learn more here: <https://john395.s3.amazonaws.com/seo-quebec.html>.

Michael Ducos also commented, "Our new GMB posting service has proven to help increase both maps and organic rankings in as little as two weeks. We helped a tech startup increase their maps listings +23% and organic listings +15% in two weeks."

All companies have one common target: to increase profits. At SEO Quebec, the most powerful strategies

are utilized to make sure that their client's site will appear on the top of the search engine page. With the new GMB posting service, company information such as name, addresses, phone numbers, and the opening and closing hours are displayed across all Google properties. That increases the chances of new clients visit the site and eventually check out the services or products that are offered. Through the proven and tested methods used by these SEO experts, any company can attract different markets and can be expanded, given that more and more people are using Search Engines to know about various services and products. That is how the new Google My Business posting service of SEO Quebec helps small businesses - to gain more customers and make it become visible on the internet.
