Michael A Crist DDS, an orthodontist from Houston, TX, is proud to announce that he is now sponsoring a local potential Eagle Scout. The sponsorship offered by www.michaelcristdds.com, will assist the boy in constructing an Eagle Scout project, one of the goals he must achieve in order to move up from being a boy scout. Dr. Crist wants to encourage and instill the values of the scouts in all his patients and wishes the boy well.

"The Scouts are one of the pillars of our community," says Michael A Crist DDS. "When I see a young boy, who is a patient of mine, being dedicated to the values of the Scouts, I want to offer him my support. I hope his project comes to an excellent conclusion and that he will be able to join the Eagle Scouts."

In order to become an Eagle Scout, a Boy Scout must complete a number of different goals. One of these is to plan, develop and give leadership to others in a project that is of benefit to the community. Dr. Crist's patient is currently planning and building a 75 foot concrete pathway that will be of benefit to local residents at Meyer Park.

Dr. Crist believes in the values of the Scouts, particularly in helping the community. To support this value, he sponsors those who are showing efforts for community engagement and improvement. As such, the young Boy Scout is not the only project that he is currently sponsoring.

"I am always interested in hearing about projects that are designed to help the community as a whole," adds Dr. Crist. "This is something that I include in my own practice as well. I want to make sure people can make informed decisions about their orthodontic needs, and particularly about Invisalign braces, of which I am a preferred provider."

Dr. Crist is incredibly popular in Houston, TX for all his community work. For instance, he has been running the highly popular Splash Bash for six years in a row now. This bash is an opportunity for the community to get together and enjoy food, fun and each other's company.
