

Inspired Grill Instruments Celebrates Grand Opening

July 23, 2015

July 23, 2015 - PRESSADVANTAGE -

Inspired Grill Instruments is a new and innovative company, specializing in grill related items. The company is celebrating their grand opening with sales on many of their new products in the Amazon marketplace.

"Great customer service is our primary focus," says KP Malone of Inspired Grill Instruments. "We are excited about our grand opening and are proud to offer products of such high quality to our customers. We look forward to establishing relationships with our customers that will hopefully last for many years to come."

One of the products that is currently being offered is a set of waterproof silicone oven mitts, which can be seen at <http://www.amazon.com/dp/B00SFWWW0G>. The gloves help to protect wearers from heat injuries for up to 400 degrees Fahrenheit. The mitts come in one size, which fits most consumers, are non-slip, and feature a bonus eBook with BBQ recipes.

"I've been using the oven mitts for grilling since they were first released," says one happy Amazon customer. "They're really sturdy, and help you to avoid having things slip out of your hands. They also really do the job when it comes to keeping your hands from getting too hot when they're close to the grill flame."

Another product featured in the grand opening is the Barbecue Grill Brush, which can be viewed at

<http://www.amazon.com/dp/B00LFN9DPY>. The brush also comes with a free eBook of BBQ recipes, and currently has more than 400 positive customer reviews.

The handle of the barbeque brush is 16 inches long, which allows consumers to brush sauce on their grilling food without getting too close to the flame. It features a non-slip handle and easy cleanup.

Inspired Grill Instruments offers a number of other grilling type products, and has plans to release new products regularly. Their grand opening is currently underway, with two products featured and others to come soon.

Inspired Grill Instruments also offers a 100 percent, no questions asked, money back guarantee with all purchases. More about the company and their grand opening sales can be seen on their Twitter page at https://twitter.com/Inspired_Grill.
