

LiveEco Delivers Emoji Party Fun For Everyone

February 12, 2019

February 12, 2019 - PRESSADVANTAGE -

EcoElectronix is proud to introduce their latest eco-friendly and sustainable products, a line of emoji bags and erasers that are perfect for parties and other celebrations.

According to EcoElectronix spokesperson Christina Abels, "We provide four different styles of emoji party favor bags to make your next emoji-themed party even more creative! It allows kids to express their unique personality by choosing their favorite emoji." The emoji party themed gift bags and erasers are designed to enchant and delight children, while also contributing towards making the planet a more environmentally friendly place. They make for the perfect birthday supplies.

Like the brightly coloured and expressive bags, the erasers are a whole lot of fun at birthday parties too, but they can also be used for another purpose. Studies have shown that children respond well when incentivised with small rewards, and there are few places where this is as crucial for a young child as in a classroom. In an environment where the foundation of a child's education is being built every day, parents and teachers are eager to find a way to keep their little one's attention on the task at hand.

With a little imagination, EcoElectronix's emoji erasers can easily be put to good use by teachers and other educators to motivate young students, when used as prizes or rewards for doing classwork well. Children can

be encouraged to work harder, and even behave better in the classroom, if they knew that they had an emoji prize waiting for them. This also means that the child receives an item that they can treat both as a toy and as a perfectly serviceable eraser.

The emoji gift bags come in a bulk pack of 40 beautiful yellow gift bags. As described by the company, the bags come in these varieties: 10 are blowing a kiss, 10 are laughing with tears of joy, 10 are crazy-face bags, and 10 have heart eyes. Each bag measures 9x12 inches, and they conveniently come with a lifetime no-rip guarantee. The reason we have been listed as Amazon's Choice and have the largest number of reviews for emoji party favor bags is that we pride ourselves on our high quality products," said Abels.

Furthermore, EcoElectronix's emoji party stuff are designed to be as pleasant as possible so the bags have the added benefit of being a balm to all the senses. Those concerned will be pleased to know that there is no unpleasant plastic odour for them to worry about, in addition to them being smooth to the touch and charming to the eye.

The customers themselves had numerous positive things to say about the bags. One customer who left a 5-star review for the product commented that, "The bags are attractive and were the perfect size for our library gift bags. They were heavy enough to hold pencils, erasers, candies, etc., without easily tearing." Naturally, the emoji erasers and emoji party bags can go hand-in-hand with each other as the former makes a fine addition to a gift bag, especially if it is for a themed event.

EcoElectronix places a high degree of value on their commitment to the environment. To accomplish this, the company works diligently with CarbonFun to ensure that all of their products, and even shipping procedures, do not negatively affect the environment. This includes, but is not limited to, regularly inspecting manufacturing machinery to guarantee that all environmental laws are complied with, and utilising carbon-neutral shipping. In fact, the company even strives to exceed what is required by environmental law wherever possible.

In addition to this, EcoElectronix uses recyclable metals and plastics for the manufacture of all of their products. A portion of their revenue is also donated to various charities dedicated to promoting sustainable living and environmentally friendly practices. These charities include Earth Justice, Rainforest Alliance, and more.

Parents, teachers, students, party planners, and other emoji lovers who wish to get their hands on the company's line of emoji products may contact Christina Abels, of EcoElectronix. They may also visit their main website for more information, or get in touch via the contact details included.
