

Fresh Start Home Sales Announces New Rent To Own Homes Program

February 20, 2019

February 20, 2019 -
Fresh Start Home Sales has announced a new rent to own home program for qualified consumers. The company states that the new program is designed to help those with bruised or bad credit, and those who are self-employed to get into a home of their own. A complete list of the program requirements from the company can be seen at https://www.FreshStartHomeSales.com.

Fitz Thompson, a representative for the company says, ?This new program is perfect for those who are looking to buy a home but may have difficulties in proving their income or have marginal credit. Many times, a consumer has the income that they need for a new home but cannot, for whatever reason, meet certain requirements because of their self-employment, down payment or credit issues.?

Fitz says that the homes that qualify for the program are good homes in nice neighborhoods. They need owners and the company is looking for tenant-buyers who need a home that is easier to get into than by going through traditional means. He states that consumers who have been faced with short sales or bankruptcy or even foreclosure may qualify for the program, provided they are working even if they cannot verify their income.

?We have answers that can help those interested to determine if they are eligible,? Fitz says. ?We help those who may be undergoing certain credit challenges but do not want to wait until those changes or fixes are done in order to purchase a new home. Our services are available for those in and around the Gwinnett County, Georgia area.?

More about eligibility for the program can be seen at https://Freshstarthomesales.business.site. Fitz says that qualifying for the program is not as difficult as many believe. Once a consumer has been approved, an associate from the company will contact the consumer and help them to shop from their list of available homes. Fitz states that being approved prior to shopping will help to alleviate some of the frustration and worry that typically accompanies the rent to own home process.

Fitz states that he and his entire staff strive to provide their customers with 100 percent transparency. He states that anyone who has questions is welcome to contact the company to learn more about the process and the requirements for eligibility. He states that the company?s website outlines a step-by-step approach to approval and helps consumers to better be prepared for the process.

Mr. Thompson says that the first step is to visit the website to learn more about the program and help to determine eligibility. The second step is to fill out the online form. Applicants will then get a link to review all qualification requirements from the application, which consumers can access online. Once approved, he says that the company will contact the consumer and meet with them to help them to choose a qualified home in the area that they want.

The equity group purchases the home in question and the approved consumer leases or rents to own the home with the right to purchase anytime during the lease when they are more readily able to do so for up to 5 years. Mr. Thompson states that this is an innovative approach to helping those who would otherwise have to rent forever to get into a home of their own with less frustration than working initially with traditional financial institutions.

The company assists families with challenges on their credit reports as well as those who are self-employed, those who are in need of a quick relocation solution and others who may have difficulties obtaining more traditional means of purchasing a home. Mr. Thompson states that the process takes a few weeks and those who are looking to own their own home soon should get started right away. He states that under the program, the consumer will have up to 5 years to purchase the home outright or if not after 1 year they can leave the home at any time by simply providing 60 days? notice and receive their deposit back to put toward another process. Those who are interested in learning more can do so at https://goo.gl/maps/bMveH8oFj5t, or contact the company by phone or email.
