

New York City Charter Bus Company Discusses Benefits Of Service

February 12, 2019

February 12, 2019 - PRESSADVANTAGE -

US Coachways, a New York City charter bus company on Staten Island, recently took to the media to discuss the benefits of renting a bus for New York City tours as opposed to other means of transportation. The company provides bus rentals to any of New York City's five boroughs, and offers a wide selection of bus sizes and capacities.

Mark Telemany, the company's CEO says, "Renting a bus provides so much more benefit than taking multiple taxis or riding the subway. Renting a bus ensures that visitors do not have to worry about train schedules or hailing a taxi, which can be difficult at certain times of the day."

Telemany says that bus rentals also eliminate the need to find and pay for parking and allow for visitors to be dropped off at the doorstep of their destination. New York City is one of the most visited cities in North America by tourists and offers a wide range of sights and activities. Getting from one place to another however, can be difficult if one is not familiar with the subway schedule or for anyone who prefers not to spend a small fortune on taxis.

?Our New York bus rental offers visitors a chance to enjoy their trips much more by worrying less about getting from one attraction to another,? says Telemany. ?Whether the plan is to visit the Statue of Liberty and the Ground Zero Museum and then travel on to Soho or any other destinations, bus rentals provide a personalized approach to sightseeing.?

Telemany says that those who have been to New York City know that finding a subway station can be difficult, particularly for first-timers. He states that once a subway station is found, it can be very difficult to understand train schedules, for those who do not travel this area often. Hailing taxis can be done but Telemany states that taxis are on a first-come first-served basis and finding one at certain points of the day, such as rush hour around 5:00 p.m., can be difficult at best.

Telemany states that their bus rentals are done ahead of time, ensuring that the schedule is all figured out and making the visit much more enjoyable. He states that all buses and minibuses are driven by local people, so they know where they are going and the best way to get there.

US Coachways was founded in 1983 with a commuter bus that ran in and out of the city. The company states that nearly 15 years ago, their actual company was formed and how provides more than 25,000 bus rental every year in New York City.

Telemany states that the company?s official website offers a free cost calculator for those who are planning to visit New York City. He states that this online calculator can show visitors the benefits of using a bus rental over various other forms of transportation. Buses can be rented to go around the city or any of the five boroughs or to pick up travelers in other cities and take them around New York City.

The company states that they have spent years building their extensive network of bus and minibus vendors in order to provide their clients with a wide range of selections. They state that they can book shuttle services for conferences, luxury buses for weddings or other celebrations and trips that range from day trips to multi-day visits to all attractions in the New York City area. Local and cross country trips are also available. Telemany states that they provide buses with valid DOT ratings and that their insurance policy ensures the safety and dependability of their services. Those who are planning a visit to New York City and would like to learn more can visit the company online or contact them directly through email or by phone. The company?s website also has an online chat feature for those who have questions prior to booking.
