Dependable Homebuyers is now buying houses under bank foreclosures in San Antonio. The nationwide We Buy Houses company has bought several residential properties in the city directly from homeowners. The team of real estate consultants at Dependable Homebuyers offer precious advice to homeowners facing various kinds of challenges. They specialize in short sales and are now specifically welcoming homeowners who face bank foreclosure.

The ideal scenario for any homeowner is to avert a foreclosure. If a foreclosure is inevitable, then it is better to sell the property before a bank initiates the process. A homeowner will have much more time at their disposal to sell a property if the bank is yet to issue the foreclosure notice. Once the notice is issued the days are numbered and most banks along with their lawyers move rather quickly to complete the foreclosure process the days. There is very little time for property owners to do anything. Many property owners try to sell their house but taking the traditional route of hiring real estate agents and finding ordinary homebuyers is a painstakingly long process. It may take several months or even a year for a home to be sold using the conventional means. Dependable Homebuyers offer a much more expedited process.

According to the company spokesperson Evan Roberts, Dependable Homebuyers presents cash offers to property owners within twenty four hours of the viewing. The cash offer is nonobligatory. If a property owner accepts the proposition, then the company has the ability to close the sale in seven business days. In most complicated scenarios, the company can complete the sale in a fortnight. This is considerably faster than the foreclosure process. So even if homeowners have been issued the foreclosure notice, there is still some time and that can be used to sell the property to Dependable Homebuyers.

A foreclosure offers no return on investment. Homebuyers are at a net loss and they also need to move out as soon as the foreclosure process is complete. There is an option available to such homeowners and it is called a short sale. Homeowners may also sell their properties before the foreclosure notice gets issued. Anyone who has been failing their mortgage is bound to be issued a foreclosure notice. It happens sooner than one expects. Many homeowners do not realize the importance of time and how quintessential making a decision is. The consultants at Dependable Homebuyers have been advising property owners to take the reins and steer their financial decisions without being subjected to the compulsions put forth by the banks and their representatives.

Dependable Homebuyers buy all types of houses, even giving homeowners a chance to sell hoarder houses in San Antonio. They do not prioritize any location and they do not have any stringent criteria pertaining to the type or present condition of the house. Every homeowner can sell their property to the company directly. The turnaround time of seven to fourteen days is the fastest anyone can sell a house in San Antonio. The direct and straightforward proposition is also the simplest option available to homeowners facing foreclosure.
