

Happy Home Services Announces Rug and Carpet Cleaning Services in Coquitlam

July 07, 2015

July 07, 2015 - PRESSADVANTAGE -

Happy Home Repair, the premier provider of carpet and rug cleaning services in Coquitlam, discusses new benefits of using the local rug and carpet cleaning services in Coquitlam.

"Our experience is one of the reasons people go to us for our repair, replacement, installation, and maintenance services," explains Javid Atmani, who has been in the home repair service for a number of years. "While we always educate and train ourselves on new technology, our practical knowledge regarding the proper cleaning of tough stains on carpets and rugs has proven extremely effective."

Coquitlam furnace repair worker, Atmani, has acknowledged the troubling rise of tough carpet stains in the home. "Many homeowners come to me absolutely heartbroken because they think that they've ruined their favourite rug or their entire floor because of a bad stain," says Atmani. "Red wine, coffee, and other liquids are often the culprits behind these messes."

Javid Atmani says that it's time for homeowners to stop fretting so much over stains that can be easily removed with proper cleaners.

“Everyone who has carpeting in their home should have their carpets cleaned regularly to ensure proper hygiene and dust elimination,” advises Atmani. “Taking care of your carpets not only prolongs their life, but also keeps them devoid of irritants and bacteria. In time, dirt and dust getting tracked in by children or animals is inevitable, and pesky dust mites can poorly influence the air quality in your house or workplace.”

Javid Atmani of Coquitlam hot water tank repair company, Happy Home Services, assures that all team members are highly-skilled at what they do, supplying clients with ease-of-mind while work is being finished. “We are licensed contractors,” he says “you can trust that Happy Home Services provides the best in in-depth and thought-out repair, replacement, installation, and maintenance work in the Lower Mainland and the Fraser Valley including rug and carpet cleaning.”

Happy Home Services offers a wide variety of heating services, on top of their rug and carpet cleaning services, to all members of their communities and surrounding areas, including furnace repair, hot water tank replacement, furnace replacement, boiler replacement, gas fireplace repair, and furnace and fireplace maintenance. For further information, contact Happy Home Services.
