Ocean City, NJ - Dependable Homebuyers in Ocean City has recently announced that they have a great solution for homeowners that need to sell their home with structural issues. When it comes to selling a house with structural problems, it can be quite a challenge. The real estate market is currently struggling and is a buyers? market. Attempting to sell a house with structural issues in nearly impossible. Buyers are looking to purchase houses that are structurally sound and not in need of extensive repairs.

Things such as a cracked foundation, sagging floors, and gaps around the doors and windows can cause a house to not be sound structurally. This can lead to other issues that can be quite costly. If a homeowner wants to list their home with a real estate agent, they will need to make necessary repairs prior to listing. When a homeowner decides to sell their home to an investor like Dependable Homebuyers, they do not have to worry about making any repairs at all. They will make an offer on the house in its current condition. "At Dependable Homebuyers we buy houses in Ocean City NJ," explains their site. "Any condition and any situation, we can help."

Dependable Homebuyers previously announced that they had expanded in to specifically looking to purchase

hoarder houses. When it comes to a hoarder house, the large amount of clutter often deters potential buyers from making an offer. Hoarder homes are also notorious for having issues with mold and pest infestations. No amount of clutter will deter Dependable Homebuyers from making an offer to the homeowner.

The first step is when the homeowner contacts Dependable Homebuyers about potentially selling their property. Secondly, an appointment will be set up to have a representative come out and take a look at the property. Next, a fair offer will be prepared for the potential seller. Lastly, if the homeowner decides to accept the offer, closing will be set up within 7 days.
