## **Contractors Insurance Solutions Inc. Offers Insurance For Contractors In Los Angeles**

*February 28, 2019*

February 28, 2019 - PRESSADVANTAGE -

Contractors Insurance Solutions Inc. (CIS) is an insurance company that specialises in providing Contractors Consulting in California. CIS is owned and operated by a licensed California Contractor and works to get its clients bonded and working as soon possible. ?With custom-built insurance programs designed to meet your company?s specific needs, you will have the confidence to freely run your business, armed with the security and peace of mind that comes with knowing that you will be covered financially in the event of an accident,? says the company.

Since CIS offers contractors licensing services, they are able to change applications over to corporate licenses, and thus avoid all the insurance requirements for the LLC contractor license, saving their client?s time and money. CIS aims to help customers find a great price on their LLC Employee/Worker Bond.

The Disciplinary Bond is one of the bonds CIS specialises in. When contractors have an issue or complaint, the contractor?s board sometimes requires that the contractor get a disciplinary bond for two years. Most disciplinary bonds cost between \$15,000 and \$30,000 and are based on the contractor?s credit score. CIS strives to get its clients Disciplinary Bonds at great prices.

Contractors Insurance Solutions offers insurance for contractors in Los Angeles as well as the \$15,000 contractor's license bonds required in the state of California. The LLC employee worker bond, a requirement for all contractors, is also one of the bonds offered by CIS. "CIS gets calls everyday for quotes for this bond because of this requirement," said the company. "In January 2012, the California Contractors Board started issuing LLC contractor's licenses. Most of the time we get these requests, the contractor doesn't know about all of the requirements the LLC has to get licensed."

The Contractor's License Bond, usually priced around \$15,000, is required to have an active license in California, and CIS specialises in getting applicants with bad credit scores the best prices. Some other companies advertise low prices, as low as \$69. "Just remember if it looks too good to be true it probably is," advised Contractors Insurance Solutions, assuring potential clients that, "We are constantly shopping for the best prices for our clients."

SBA Bonds are meant to help contractors who don't have the collateral, or financial strength, to qualify for a bid bond and a performance bond. CIS has helped new contractors get their first bonds and continues to help contractors, both new and experienced, find bonds at affordable prices.

As worker's compensation is required for any business that has employees in the state of California, Contractors Insurance Solutions works with individual contractors to develop an understanding of the precise nature and needs of their business, which allows the company to provide its clients with the best coverage and rates possible. "We understand you may not always have employees, and there is down time between jobs," noted the company, further affirming that, "We understand the contractors business process when it comes to workers compensation insurance."

Contractor's general liability insurance is a way to ensure that a company and its owners are protected in case of any claims or damages during the day to day operation of the business. "When working with our clients, CIS takes the time to find out what your business does so we can figure out who the best insurance company is for you," said CIS. "We consider the type of work and coverage needed, and what insurance company has the best coverage for your particular protection and job requirements. CIS will get you a quote and your policy the same day you request them."

CIS also assists clients looking to buy construction surety bonds in Los Angeles. Surety bonds are a promise made by one party to pay a certain amount if a second party, known as the principle, fails to meet some obligation. Contractors Insurance Solutions provides insurance and surety bonds in the Los Angeles area.

Interested parties may get in touch with the firm by contacting Matt Rogers of Contractors Insurance Solutions, or by visiting the company's website.
