

Real Estate Consultant Buying Houses in Rowlett TX

February 25, 2019

February 25, 2019 - PRESSADVANTAGE -

Top Dollar Homebuyers has announced that they are now buying houses in Rowlett, Texas. The company states that they purchase homes directly from homeowners without the need for a real estate agent.

A representative of the company says, "We are currently buying homes in the Rowlett area. These homes can be in any condition and we purchase them in any situation without the need for real estate agencies and all the paperwork that typically comes along with them."

More information about the company and their homebuying services can be seen at <https://topdollarhomebuyerstx.business.site/>. The company states that they came up with an alternative for homeowners who are looking to sell their house fast without the hassle of dealing with the costly repairs and other fixes that are often required before being able to list the property in the real estate market. The representative of the company states that homeowners will find the process a lot less tedious than working with real estate agents. The company also offers a fair cash price for the home in a matter of hours.

"Whatever the situation, the homeowner may need to sell the property as quickly as possible," says the representative. "We are interested in buying homes regardless of condition and we make the whole process much easier than the traditional means of listing it in the market. Our approach to home-selling is simple and

straightforward and we always explain every little detail to the homeowner to ensure that they fully understand everything before we proceed with the sale.?

The company says that the appeal for homeowners is that the sale can go quickly and without repairs, appraisals, inspections and other paperwork that is a prerequisite before the real estate agent can list the home for sale. The homeowner simply decides whether or not they want to accept the offer that is provided by the company and then move on from there.

The company states that any homeowner in Rowlett and the neighboring cities who wishes to sell property may contact them through their phone number at (972) 544-0765. They state that they buy homes of all sizes and shapes and in any condition, such as those homes that are in dire need of repairs and those that are facing foreclosure. They also make sure that they provide the most streamlined process for homeowners to sell their houses and get out from under their mortgage as quickly as possible, even if there are still some payables left. The company offers to discuss the homeowner's options who still owe money on their properties.

The representative of the company states that another appealing factor of their homebuying services is that unlike real estate agents, they do not charge commissions for the sale and they offer their services for free. They do not disguise with hidden fees and they let homeowners know upfront about what they are receiving from the sale. There won't be numerous paperwork to deal with and the company also guarantees that they can get the home sale accomplished within seven days from the first point of contact.

Top Dollar Homebuyers has been offering homebuying services in Rowlett and the neighboring cities for a number of years. The company states that while the traditional approach of home-selling is fine for some homeowners, there are reasons that some may not be able to successfully sell their homes through this avenue, which is why the company's services have been made available for them. Houses that are in need of major repairs that would typically only get low traffic in the real estate market may be sold to the company for a bit more than the homeowner would expect by going through the easier way. The spokesperson of the company says that any homeowner who does not want to consider the option of selling a property through a real estate agency or who needs to sell their house as soon as possible without waiting for months to find an interested buyer may contact them to discuss their options.
