

Lethbridge Electrical Contractor Receives New Google Reviews

March 06, 2019

March 06, 2019 - PRESSADVANTAGE -

Neu-Lite Electric Inc in Lethbridge, Alberta has received a number of new reviews on Google. The company states that they have recently received several five star reviews from customers, and state that they are pleased with the reviews and the reputation that it has earned them.

A representative for the company says, "Our team has more than 40 years of experience in residential, commercial and industrial electrical projects. We are always pleased to help our customers and to hear from them when the job is finished."

The company states that they attribute much of their success to meeting the deadlines put forth by their clients and to delivering quality work on every project. Their newest reviews on Google would agree.

Customers of the company praise the company in their latest reviews. One customer states that they, "Are very knowledgeable in the electrical trade," and that they are, "Professional and efficient." Another customer goes on to add that the company recently supported their team building event with a donation. Customers state that the ongoing generosity of the electrician Lethbridge is much appreciated.

The company states that they thoroughly appreciate every customer and that they appreciate being part of their community. The company representative states that they have worked on numerous projects throughout Western Canada, including new Walmart stores, Real Canadian superstores, Home Depot, Lowes and a number of additional commercial establishments.

They go on to add that their team of residential electricians have helped with more than 9000 single family homes in addition to their various multi-family units over the years. these include assisted living facilities as well as home residencies.

The company also provides industrial electrical work and has been involved in a number of plant automation projects, safety monitoring and preventative maintenance upgrades for industrial and agricultural customers throughout their location. The company states that part of the reason that they have been in business for more than four decades is because they treat each customer the same; whether they are a residential or an industrial client.

The company's website offers more information on the specific line of electrical services that they offer. Those in the area who would like to learn more can visit them online or on any of their social media pages. The company's Facebook page can be seen at <https://www.facebook.com/NeuLiteElectric>, and includes even more reviews left for them by their satisfied customers in all industries. Those interested can connect with them on Facebook to stay updated on their service offerings.

The electrical company states that they retain a strong commitment to their customers, offering afterhours services as needed. Trained electrical technicians are on call for a number of services including fire alarm testing, automation upgrades, lighting upgrades, network cabling and more. The company states that anyone who has questions about any of the services that they currently offer can learn more by visiting them on their website or by contacting them directly during their normal business hours.

Google has become a popular place for customers of many organizations to leave positive or negative feedback for the services that they have received. Billions of online users currently use the platform to find local businesses for their needed services and those customers often leave their reviews so that others will know whether or not these specific companies offer the services that they claim to offer. Neu-Lite says that they are pleased that their customers have taken to Google to let them and others know about the quality of service that they have received. The company representative states that they hope other customers will follow suit and leave their own review when their services are completed.

It's a good way to let people know if a company is what they claim to be, says the company representative. We always encourage our customers to leave honest feedback for the services that we have

provided, and we are thrilled that so many of our customers have been satisfied with our work.?
