

San Antonio Real Estate Company Encourages Property Owners To Sell Houses During Spring Season

March 07, 2019

March 07, 2019 - PRESSADVANTAGE -

Texas based Dependable Homebuyers San Antonio would like to bring to the public's notice that, starting in March and going through June, the real estate market will be in full force throughout San Antonio and the surrounding areas. This is because March marks the beginning of the spring season in Texas.

"If you are planning to sell your house, now is the best time to talk to your real estate agent or list your property out on the internet. While every sale and area is different, the majority of markets have shown that there's no better time than spring to put your house up for sale," says Evan Roberts from Dependable Homebuyers San Antonio.

As noted on the company's website, at <https://dependablehomebuyerssanantonio.blogspot.com>, buyers tend to purchase houses during the spring season primarily because the weather allows them to easily move into a new home. A recent survey also shows that most buyers want to get settled into a new house before a school year begins, which is why buying in the spring and having the whole summer to get adjusted to a new environment appeals to many families. Furthermore, even those who do not have kids find the spring season better for taking time-off of work to move to a new place.

Roberts continues that properties tend to sell faster and at higher costs since there is a significant demand for houses during the spring season. In fact, based on a research done by Zillow, it shows that homes listed between the months of March and April sold 15% faster than homes listed during the other months of the year. The same research also states that people who sold their homes during the said period also landed an average national premium of about \$4,000.

In addition, Roberts states that the aesthetic appeal of a property is at its best during the springtime, explaining that, "The spring season is where the lawns are green and the flowers are blooming. It is also the time when buyers are in the mood to do property viewings and inspections, and having a great-looking outdoor space can influence potential buyers into purchasing your property."

Furthermore, he says that since there are plenty of buyers in the market, the wave of potential buyers during the spring season means that a seller's probability of getting a better offer is high, adding, "If your property is an attractive option, you can afford to take your time until the right buyer with the best offer comes along."

Meanwhile, those who are looking to sell their properties quickly may consider reaching out to Dependable Homebuyers in San Antonio. They are a local home buying company who directly purchases residential homes in the area regardless of their location and condition. "If you want to sell your house fast, just call our office hotline and we can provide you with a cash offer within 24 hours," assures Roberts.

He states that the company provides an efficient service that significantly cuts the lengthy process of selling a house. "Just simply give us a call, tell us more about your property. If it meets our buying criteria, we will contact you to set up a quick appointment. Once we get all the information we needed, we will present you with a fair written, but non-obligatory, offer. Afterwards, we will close the deal at a reputable title company where you can have the cash in your hand in as fast as 1 to 7 days," he said. Furthermore, he points out that Dependable Homebuyers is composed of local real estate experts who aims to provide professional and transparent service to the community.

One of their satisfied clients, Debora Stortz, said in a Facebook review, "Dependable Homebuyers is both honest and trustworthy. I highly recommend giving them a call if you have a house that you want to sell fast. They buy your house on an as-is/where-is basis and no realtors are involved. They truly are a great option for selling your house in today's market."
