

United Card Solutions Announces Launch Of Country Wide Service

August 07, 2015

August 07, 2015 -

Portland, Oregon based United Card Solutions (UCS) has recently launched its credit card processing service throughout the US. UCS provides businesses with state of the art equipment and technology to process their customer's payments. Company spokesman Jeff Easter states, "We believe that to be competitive in today's business and technology landscape, you need to have the right credit card processing tools." He adds, "We are committed to staying up to date with current trends and technology."

UCS is committed to providing card processing systems that meet and sometimes exceed required standards and guidelines. Jeff explains UCS's stance on security: "We supply businesses with credit card processing equipment that is Payment Card Industry (PCI) and EMV compliance. This means our products meet the industry standards that make sure your customer's information will be kept safe and secure."

UCS also offers its clients with additional services such as small business financing. "We provide solutions for a wide range of business models and take pride in helping our customers solve the most difficult business challenges," Jeff elaborates. A complete collection of the services the company provides can be found on the company's web site at www.unitedcardsolutions.com.

UCS places a large focus on its customer service team. "Our team listens and learns from each interaction and operates in a way that gives our customers a powerful say in every aspect of our services," states Jeff. The company encourages its clients to connect with them on their newly launched Facebook page at <https://www.facebook.com/pages/United-Card-Solutions/112456122423763>.
