

Juicery In New Jersey Launches New Website Featuring Top Selling Smoothies

March 06, 2019

March 06, 2019 - PRESSADVANTAGE -

New Jersey based Green Point Juicery (GPJ), a popular brand offering cold-pressed juices, smoothies, and home-made foods and desserts in Verona and Morristown, has recently launched a new website featuring their all-natural and nutritious products.

Established in 2015, GPJ is a locally known brand that is famous for bringing the purest, tastiest, and most affordable cold pressed juices to the community, as well as committing to sustainable business practices. A spokesperson said, "At GPJ, we strive to emphasize healthy eating habits by using only high quality ingredients that are 100% organic, sourced locally (when possible), kosher certified, natural, and vegan or vegetarian."

As noted on the company website, they pride themselves in serving customers with nutritious yet tasty cold pressed juices, real fruit smoothies, and healthy foods that are made entirely from natural and organic ingredients. The spokesperson added that they never use any refined sugars, chemicals, preservatives, pesticides, HPP, GMO, or any harmful additives so customers can expect pure and real flavors from their products. "Furthermore, we have a firm commitment to sustainability, which is why they have implemented

the "leave-no-trace policy" in our business. All of our packaging is either compostable or recyclable, and our organic waste products are composted at a local farm (Morgan's Farm in Cedar Grove). We are proud to boast our accreditation of sustainability by the state of New Jersey as Verona's first recognized sustainable business," the spokesperson said.

Meanwhile, nutritionists recommend consuming pure and natural based smoothies and juices for a number of reasons. They explain that berry-infused fruit juices are rich in flavonoids, which are great for burning fat cells, and since fruits are rich in fiber, they promote healthy digestion as well as boost the body's overall immune system. In addition, research shows that some fruits and vegetables, including garlic, papaya, and beets are great detoxifiers that help to cleanse the blood and aid the liver to get rid of toxins more efficiently. Furthermore, studies found that fruit smoothies and juices are known to reduce cravings, promote hydration, boost vitamin intake, help prevent heart disease and diabetes, balance hormones, and more.

Those looking for organic and all-natural food options in <https://bit.ly/green-point-juicery-map>, may check-out the company's website or visit their store locations in Verona and Morristown. Green Point Juicery's products are highly recommended by their customers based on a number of positive reviews and feedbacks they receive online.

Lyndsay C. said on Facebook, "My family is a big fan of Green Point Juicery. The staff is so friendly, and they always make sure you are happy with your order before you leave the store. They are generous with samples so that you can get to know all their products. From smoothies to juices, we haven't tried anything we haven't loved. It's great to drink something that tastes so great but also makes you feel so good."

Stephie Y., another satisfied customer, said on Yelp, "I stumbled upon Green Point Juicery while I was hanging out with my cousin at the park across the street. Upon walking in, we weren't sure what to get so the staff member allowed us to try so many samples, which was extremely sweet of him. From the fridge, I got a green juice which was very refreshing and my cousin got the chocolate cashew milk, which tasted amazing. I've also had some samples of their desserts which were really good. You can also get juices made and, if you are buying more juices from the fridge, you will get a bigger discount. I love this place and can't wait to go back."

"I love GPJ. Aside from having a great menu, they also provide a rewards program that gives customers freebies over time. They are always allowing you to sample various desserts and juices they are making at the moment and everyone is always very pleasant and helpful. Shakes are fresh and delicious, as are the dessert items I have tried. Shake prices are also more reasonably priced than other shops in the area," said Janine R., on Yelp.

More information can be found on GPJ's website. Interested parties may also visit their stores in Verona and

Morristown, NJ, or check out their official Facebook page at <https://www.facebook.com/GPJucery/> to learn more about their latest product offerings.
