Many patients choose it as a cosmetic procedure to change the shape and overall appearance of the nose.

"Whatever the reason, whether cosmetic or medically necessary, we strive to provide our patients with the positive results that they seek," says Dr. Kosins. "Rhinoplasty is a very popular procedure and we can help our patients to determine their outcome, through a number of means, so that they get an idea of what their nose will look like after the procedure, or how the procedure itself will help them with various medical issues."
