## **Chiropractor In Chandler AZ Specializes In Gentle And Pediatric Care**

*March 08, 2019*

March 08, 2019 - PRESSADVANTAGE -

Great Choice Chiropractic, which is located in Chandler, Arizona, has announced that one of their specializations is gentle and pediatric care. They want to emphasize that they focus on chiropractic techniques that are gentle and avoid the outdated techniques that may do more harm than good. Dr. Hauser makes use of the Activator Methods Chiropractic Technique (AMCT). AMCT is a gentle and safe alternative to the spine cracking often used by chiropractors. Dr. Hauser also makes it a point to remove the fear and panic that children may have when they visit or see a chiropractor.

Dr. Greg Hauser says, "Many spinal concerns that adults experience actually begin during childhood. Kids experience injuries from an assortment of physical activities and, unless they receive immediate treatments, the injuries can eventually morph into debilitating bone, joint, and muscle pain. We utilize the latest technology to administer accurate examinations. Your child never has to undergo unnecessary treatments that increase pain and decrease your bank account."

Dr. Hauser makes use of a number of chiropractic techniques for treating the spine and nervous system. He also provides gentle pediatric treatments for pregnant women.

This chiropractor Chandler AZ residents can go to, also offers treatments for back, neck, and headache pain. This service is vital because it has been noted that more than 80 percent of Americans experience some kind of back pain at least once during their lifetime. Great Choice Chiropractic combines a number of treatment methods to get rid of or at least alleviate chronic back pain. Patients can receive any combination of adjustment, exercise, and nutritional treatments for pain in the joints, back bones, and muscles.

That the services provided by Dr. Hauser are effective is attested to by the many positive reviews Great Choice Chiropractic has received from past clients. As of this writing, Dr. Hauser has received more than 350 five star reviews found around the web. For example, Dale D. gave him five stars and said, "My wife and I have seeing Dr. Greg on a monthly basis. I have been seeing him 4 or 5 years. Three years ago my Wife was down in her back so bad she was having a hard time walking. One trip to Dr Greg and she walked out fine. Now she is sold on the Dr." Another satisfied patient gave the practice five stars and said, "As always, the service and caring was an A+. I've been going to Great Choice for a year now, and the difference between then and now has been life changing for me! I am getting my life back because of Dr Greg's ability to help in reducing my pain. Shele and Teya also have played a huge role in making my appts. successful. I love them all!"

Dr. Hauser also offers three additional specialty treatments while using his patented gentle approach. These specialty treatments are for carpal tunnel syndrome, disc pain, and sciatica. Discs are cartilage pads that are found in between the spinal bones and serve as shock absorbers to protect the spine from injuries. However, when a disc ruptures, bulges, or herniates, the person experiences disc pain. Treatment of disc pain requires techniques that require the skills and experience of Dr. Hauser.

Dr. Hauser obtained his degree from the Cleveland Chiropractic College. He is board certified both as a physiotherapist and as a chiropractic physician. He also has a pediatrician certification from the International Chiropractic Pediatric Association. Furthermore, he is certified as an independent chiropractic examiner by the American Board of Independent Medical Examiners. And finally, he has been given an advanced certification in whiplash injury biomechanics and mild brain traumatology.
