

Cosmetic Dentist In Westwood Celebrates 5 Years Of Business

March 12, 2019

March 12, 2019 -
Swiss Quality Smile, a boutique dental service in West Los Angeles, is excited to announce five years of successful service. In celebration, Swiss Quality Smile will be commemorating the community it serves, as well as its workforce.

Dr. Ilona Casellini DMD is the owner and primary cosmetic dentist at Swiss Quality Smile. She is a 4th generation dental professional and part of a regarded familial dental legacy, dating back over 100 years. Her family is from Switzerland, which has inspired the name for her dental practice, ?Swiss Quality Smile.? Dental care comes somewhat second nature to Dr. Casellini, as she has expressed that, ?growing up, I have been exposed to the dental field my entire life.?

In only five short years, Dr. Casellini and her fellow staff have quickly created a name for themselves in the community due to the business? unique combination of services, including both cosmetic and comprehensive dental treatments, and a boutique style experience. Dr. Casellini expressed that, ?I really pride myself in taking individual time to spend with each patient.? She also explained that, ?what sets us apart from other dental offices is our collaboration with the laboratory down the hall. It allows for faster turnaround time,

custom shade matching, and we collaborate on larger cases to give a functioning aesthetic product to the patient.?

Swiss Quality Smile has been providing Westwood Village and its surrounding communities with a variety of dental services, such as teeth whitening, dental implants, veneers, tooth colored fillings, inlays and onlays, and more. They also provide customers with the opportunity to choose their own music, and a scented lavender disposable hot terry cloth towel after every visit to ensure that their patients always leave the office feeling refreshed and relaxed.

Even customers that have previously not looked forward to previous appointments with their dentist have been enjoying visiting Dr. Casellini. One customer left a review on HealthGrades, saying that, ?It?s hard to imagine that I can sit here and say that I really enjoy my visits to the dentist. I had developed a pretty serious phobia about going to the dentist. Dr. Casellini and her staff take magnificent care of my wife and myself. They are extremely sensitive to ensure that I?m in no discomfort. They do fantastic work and are incredibly fun group to joke around with during the visit. If you are looking for the best possible care and experience, this is the place.?

Another patient left a review on Yelp stating that, ?It doesn't get better than Dr. Casellini. I absolutely hate going to the dentist, but have finally found a doctor, office and staff that makes the experience a pleasure.?

Swiss Quality Smile's professionalism and quality can be exemplified by the extensive number of high-rated reviews on a variety of websites, most of them coming in at 5 stars. On Swiss Quality Smile?s Facebook page, a satisfied customer left a review for Dr. Casellini's practice, saying that, ?Dr. Casellini is such an excellent dentist, very professional. She is very gentle when treating patients and listened patiently to all my concerns. Her staff is also very professional and knowledgeable. I highly recommend Dr. Casellini to everyone!?

Dr. Casellini, a leading cosmetic dentist in Westwood, and the staff at Swiss Quality Smile regard customer experience with the utmost priority. She said that, ?I strive to take time with my patients and really get to know them on a one-on-one basis. I will spend time going over treatment plans with them, I will spend time talking with them on the phone or in person. We really just want you to feel at home here.? The dental practice also constantly updates and engages with interested parties through their various social media platforms, allowing patients to have a more direct and intimate experience with the practice.

More about Swiss Quality Smile and the services that they provide can be found on the business' website. Swiss Quality Smile can also be found on various forms of social media, such as Facebook, Twitter, Instagram, and Google+. Those seeking dental services may also visit their website to see if they qualify for certain services, such as dental implants in West Los Angeles.
