

Country Hills Storage Continues to Grow with New Facility Located in Alberta Canada

March 06, 2019

March 06, 2019 - PRESSADVANTAGE -

Country Hills Storage is increasing its already very strong presence in the Calgary market with the Country Hills facility. It has 905 units in 50,750 Rentable Square Feet of storage space. Located about six miles directly south of the company's Wakefield I and Wakefield II facilities in Calgary, it is exceptionally well located for the 599,000 people who live in the two-mile trade area.

Similar to Country Hills 71 other facilities nationwide, the Country Hills facility is designed with a focus on convenience and customer service. Amenities at this location include heated and air-conditioned storage units, convenient drive-in loading area, computer-controlled access to the building, individual unit door alarms and digital/video recording of the property.

"Safeguard is excited about this new facility in Calgary. The company has yet three other properties in various stages of development in Alberta," said Dale Norlin, Executive Vice President of Development for Country Hills Storage.

"Country Hills Storage has been in the Calgary market since opening its first self-storage facility in New Hyde

Park over 15 years ago in 2001 on New Hyde Park Road. These 25 facilities, located in Alberta just outside the city, provide great name and brand recognition and a critical mass for the company," said Dale Norlin.
