Real Estate Consultant in San Antonio TX Offers Direct House-Buying Services

March 08, 2019

March 08, 2019 - PRESSADVANTAGE -

San Antonio-based San Antonio Homebuying Pros is proud to announce that they are now directly buying houses and properties in San Antonio and the surrounding areas.

San Antonio Homebuying Pros is a home-buying company that directly buys houses from homeowners in San Antonio thus eliminating real estate agents and middlemen. When a homeowner sells the house without an agent, the pricing of the house can be controlled and the homeowner can also avoid costly real estate agent commissions and advertising fees that come along with their transaction. Moreover, sellers can guarantee the transparency of the deal when they work directly with the buyer and not with intermediaries who only have limited knowledge about the property.

According to Dustin Pruitt of San Antonio Homebuying Pros, transactions are more likely to be successful when the sellers and buyers work directly with each other. Without a middleman in the process, both parties can have a more open discussion and transparent negotiation. The seller also does not have to pay any more for expensive agent commissions and other hidden fees. By eliminating the costs in the transaction, sellers can save more money and use it for other important things.

San Antonio Homebuying Pros offer top dollar cash for a property in the city and the neighboring areas. This will be beneficial to homeowners who are in dire need of cash and need to sell their house quickly. For situations such as facing foreclosure, being behind on mortgage payments, going through a divorce, relocating, having a vacant house, and more, the company is willing to help homeowners get out from under this circumstances. They will buy the house as soon as possible regardless of the condition. In this way, homeowners do not have to worry anymore about spending for repairs and fixes that the house needs. The money that will be received at the closing can also be used by homeowners who are late on their mortgage payments to cover some or all of it, if possible.

San Antonio Homebuying Pros has streamlined the process of traditional home-selling so homeowners can enjoy the experience without any inconvenience on their part. This process is much easier and more convenient than doing it with real estate agencies. When a homeowner calls the company and informs them about the house that needs to be sold, the company will set an appointment with the homeowner so they can assess the house quickly. Afterward, the company will provide a fair cash offer for the property which the homeowner has no obligation to accept. But if the offer gets accepted, the company will start the process of buying the house and take care of everything. This will remove the hassle on the homeowner's part while in the process of selling a house, unlike the usual experience when dealing with real estate agents. The only work left to do for the homeowner is signing the closing papers and getting the cash on hand shortly afterward.

However, the company would like to warn the public to always check a company's reputation that they are dealing with to make sure they will not sell their house to scammers. To those who want to know what areas the company provides its services to can visit them on Google Maps at <https://goo.gl/maps/yxs9p9Asmut>. The company also added that the range of their service areas is not limited to what's in the map, as long as it is still near the city.

The official website of San Antonio Homebuying Pros can be found at <https://sanantoniohomebuyingpros.business.site>. In the website, interested parties can view more details about the company and their homebuying services. Homeowners who want to sell a house may connect with the company through their website or by calling them on the phone. For the latest news and important announcements, the company advises those who are interested to visit their media webpage at <https://www.pressadvantage.com/organization/san-antonio-homebuying-pros>.
