March 08, 2019 - PRESSADVANTAGE -

San Antonio-based Fast Cash House Buyers is now buying houses in San Antonio, Texas. This is a "We Buy Houses" company that purchases houses directly from homeowners without the need for real estate agents.

"Many homeowners in San Antonio have told us about their gruesome experiences with the traditional process of selling a house. From listing the property for sale in the market to getting a solid cash offer was always a long wait. Most of the time, they are always undecided whether to finally agree with an offer or wait for a better one to come along. However, when they put an offer on hold and choose to wait, little did they know that the previous offer is already gone, thus making them wait again for a long while for another offer," said Sam Navas of Fast Cash House Buyers. "When selling a house through the traditional way, which includes real estate agents in the process, you will never have guarantees that your house is going to sell on a timeline you expected. Your house may sit on the market for several weeks or months, or even worse, for years. Fast Cash House Buyers provides homeowners in San Antonio with no-strings-attached homebuying services that are guaranteed to sell their house in as fast as 7 days."

A number of homeowners are already complaining about the overly-complicated process of selling a house

through a real estate agent. This process requires sellers to spend for agent commissions, listing, and advertising fees, repairs needed for the house, and any other hidden fees.

?Our team of professional homebuyers is buying houses in the San Antonio area and making it possible to get a house sold within 7 days by following our simplified home-selling process,? assured Sam Navas. In the traditional way of home-selling, homeowners are often forced to invest in costly repairs of their house before an agent lets them list the home in the market. This investment of renovating the house does not even guarantee that it will attract potential buyers. However, if a homeowner could not afford the repairs that the house needs, it will definitely be difficult to find potential buyers. Fast Cash House Buyers provides homeowners with a service that will help them be able to sell their house fast and easy. The company is willing to buy houses regardless of condition so homeowners who could not afford the repairs may sell their house as-is. It does not matter whether the house needs a considerable amount of major repairs or just a little. As the company promises, they will buy the house whatever condition it is in.

Homeowners who are in such difficult situations would also need to sell their house for other reasons such as facing foreclosure, going through a divorce, having tenants who cannot pay on time, inheriting an unwanted property, owning a vacant house, being late on mortgage payments, and more. Fast Cash House Buyers offers a more effective solution to help homeowners get out from under these dreadful situations. The company can buy the house in as fast as 7 days thus giving homeowners an opportunity to finally move on with their life after the house has been purchased.

Fast Cash House Buyers is not affiliated with any real estate agencies or third-party companies. Homeowners who would like to read more news and announcements from the company may visit their media webpage at <https://www.pressadvantage.com/organization/fast-cash-house-buyers>.

?The goal of Fast Cash House Buyers is to simply help homeowners sell their house fast while giving them top dollar offer for their house, which makes the process easier and stress-free than the traditional approach,? reassured Sam Navas.
