

Best Stairlifts London Company Offers New Range Of Mobility Stairlifts

March 09, 2019

March 09, 2019 - PRESSADVANTAGE -

UK Mobility Centres, the leading makers of stairlifts in the UK has announced the addition of a new range of mobility stairlifts to their catalogue. The premier resource for stairlifts in the UK has a reputation for supplying stairlifts that makes life easy for those with mobility issues.

“We are happy to announce the addition of a new range of mobility stairlifts to our existing collection for the benefit of our customers,” says the spokesperson for UK Mobility Centres. “We supply and install brand new and fully reconditioned stairlifts as well. Our stairlifts can be installed on stairs of any type and design and do not involve any structural changes.”

Stairlifts are being used by thousands of UK residents to go upstairs effortlessly. It gives people who are getting older the freedom to move upstairs on their own without seeking the help of others.

UK Mobility Centres offers a range of UK mobility stairlifts, designed to fit staircases of all types and designs. These models are engineered keeping in mind crucial aspects such as strength, durability, and convenience.

It is commonly seen that staircases in homes are designed with curves, spirals and other similar designs to enhance the aesthetic factor. The Curved Stairlift model from UK Mobility Centres can be customized to move along all twists and turns that the staircase design may have.

Wheelchair Platform Lifts model by the company is the perfect solution for those who are confined to a wheelchair and want to enjoy the freedom of being able to move upstairs without any external help. The wheelchair lifts offered by UK Mobility Centres are designed specifically to help the seniors and the disabled regain their mobility and freedom.

Customers can choose from a large range of wheel chair lifts and they are all carefully designed to meet the highest standards of safety requirements. They can find a lift that can sync with the architecture of their home while ensuring that the key utility factors are also satisfied.

UK Mobility Centres have a team of experienced and highly competent engineers ready to offer clients the best experience while using their advanced stairlifts.

The company has associated with some of the most reputed names in the industry such as Acorn Starlifts to provide world class products that come with the best safety features, user-friendly controls, and a comfortable swivel seat. The device can be installed on multiple flights or a single flight of stairs.

Their latest slimline models can be folded and kept away when not in use. They move at a gradual pace to ensure that the user does not suffer any risk or inconvenience during the move upstairs.

According to the company, all stairlifts are independently tested to comply with the latest safety standards.
