

Nova Graphene Inc. Joins with the Centre for Ocean Ventures & Entrepreneurship

March 08, 2019

March 08, 2019 - PRESSADVANTAGE -

Nova Graphene is proud to announce that it has established its Canadian corporate offices at The Centre for Ocean Ventures & Entrepreneurship (COVE) - a collaborative facility for applied innovation in the ocean sector located in Halifax, Nova Scotia.

Nova Graphene CEO, Paul Beasant feels that ?Nova Graphene and the COVE are a great match, as we share a joint mission: to propel the ocean economy by providing high-quality marine infrastructure and advanced materials with our CarbonEra? Graphene products. Through the outstanding laboratory results that we are getting independently, as well as through partnerships with renowned research institutions like Dalhousie, McGill, and UOIT, we know CarbonEra? Graphene products will play a big part in the evolution of many aspects of the Commercial and Military Marine sectors.?

From its new COVE headquarters, Nova Graphene has continued product development and formulations including for resins, coatings, expansion foams, lubricants, and additive manufacturing applications.

Nova Graphene?s vision is to also introduce its Graphene formulations into almost every aspect of the

Marine Industry. This includes: highly advance waterproof cements; more environmentally friendly docks

& pilings made from extruded recycled plastics, antifouling coatings that don?t require sacrificial metals

or biocides, coatings that shed Ice in frozen conditions, lighter and stronger boat structures, state of the art

ballistic armor light enough that it floats.

Located in what was once the Canadian Coast Guard facility on Halifax Harbour, the COVE hub is home to

local and global ocean technology businesses, post-secondary institutions, researchers, and marine-based

and service businesses that support the ocean sector. The COVE site features extensive marine facilities

with two large, deep-water piers, office space, an incubator and space for shops and labs.

Nova Graphene is proud to be part of a community that brings together the best and the brightest to push

ocean tech advances to market. An environment that fosters innovation and cross-pollinates expertise, ideas,

and resources among members, COVE is where business growth, opportunity, and technical advances

happen.

The advances that are developed through COVE will have practical, commercial and revolutionary

applications in ocean tech. There is a global need for ocean tech solutions. The impact of what happens at

COVE has local, provincial, national and international significance.

About The Company: Graphene, a revolutionary carbon allotrope, is the future of all sectors of manufacturing.

Nova Graphene is an international provider of unique graphenes and grapheneenhanced product

formulations. Our blends? including?CarbonEra BlackTM?, ?CarbonEra PlatinumTM?, and ?CarbonEra

DiamondTM? ? have successfully & properties of everything from concrete

& amp; composites, to insulation & amp; lubricants.
