Florida Spine and Injury Gets 4.6 Star Rating For Ocala Location

March 13, 2019

March 13, 2019 -

Florida Spine and Injury, a chiropractic practice, has announced with pride that they have a 4.6-star overall rating for their Ocala, Florida location. They offer a one-stop solution for people who are suffering from pain and they have been focusing on helping people who have been injured due to car accidents caused by the recklessness of certain drivers. They have recently released a blog post offering advice to victims of car accidents on how soon they should see a chiropractor after the accident. Those interested to see what people are saying can take a look at the reviews the chiropractic office has been receiving on Google.

Dr. Jonathan Walker, D.C., with Florida Spine and Injury, says, ?We are so happy to announce that our Ocala office has been receiving so many positive reviews that we now have a 4.6 overall rating for that location. We feel that it is a well-deserved rating in view of our decision to focus on helping people who have been victims of auto accidents. We utilize state of the art diagnostic techniques that allow us to accurately diagnose traumatic injuries such as Digital Motion X Ray (video fluoroscopy), Quantitative Electroencephalogram (EEG), and Dynamic Surface Electromyogram (EMG).?

Florida Spine and Injury is for those who need help after a car accident. According to Dr. Jonathan Walker,

there are a number of things that distinguish them from other clinics with regards to the treatment of accident injury victims. These are accurate diagnostic testing, expert medical care, and attorney referral.

They provide their patients access to the best medical testing equipment to make sure that they are able to get an accurate diagnosis before treatment is started. Also, the team of medical professionals at Florida Spine and Injury have the appropriate training for establishing a customized rehabilitation program to ensure the best opportunity for patients to reach full physical recovery. And for those who are entitled to compensation for the recklessness of a particular driver, the clinic can also refer them to personal injury lawyers.

That the services offered at Florida Spine and Injury are of excellent quality is attested to by the positive reviews they have received. For example, Crystal M. who gave the Ocala clinic a five-star rating said, ?I have seen Dr. Fontane for my headaches and neck pains. He is great! Office staff is also very nice and welcoming! The wait is never long and I am also getting same day appointments too! Highly recommend this chiropractic office!? Meanwhile, Estelle R., who also gave the clinic five stars, said, ?I was new to the area and get looked for a chiropractor near me, thank goodness I found Florida Spine, they have treated me like gold and I feel so much better!?

Florida Spine and Injury offers various kinds of services. These are chiropractic care, help for victims of car accidents, and treatments for slip and fall injuries, neck pain, back pain, whiplash, neuropathy, and work injury. With clinic locations located throughout Central Florida, their chiropractors can provide help with neck pain, back pain, sciatica symptoms, headaches, and more. Chiropractic care is a non-invasive form of medical care for treating muscle and joint problems that often manifest as pain and headaches.

Florida Spine and Injury has been treating accident injuries for more than 20 years through a combination of medical doctors and chiropractic doctors who are able to diagnose, treat, and document the injuries. They have pledged to do whatever it would take to relieve the pain that victims are suffering from. They also refer victims to top personal injury lawyers for legal advice. They have offices throughout the state of Florida. Thus, aside from Ocala, they also have offices in Lake City, Gainesville, and The Villages.

Those who want to learn more about their various locations and the services offered at Florida Spine and Injury can visit their website, call them on the phone, or contact them by email.
