

Basement Reno Experts Opens Calgary Location

March 13, 2019

March 13, 2019 - PRESSADVANTAGE -

Basement Reno Experts now services Calgary with all levels of home renovation, from simple upgrades to complete refinishing. They work on more than just basements, too. This company offers knowledgeable, friendly and excellent customer service, reflected in their clients' testimonials.

Positioned as a top home renovation company with over a dozen locations, Basement Finishing Company provides estimates and ideas for renovating homes. Whether it's a condo, town home, or house ? size is of no concern. But their specialty is taking that underutilized basement and turning it into additional value for residences. Like a blank canvas, basements that are unfinished lend to great creativity and skill, both of which the company touts.

Locations can be found in the following cities: Calgary, Edmonton, Red Deer and Lethbridge In Alberta.

Finishing a basement is like painting a piece of artwork, according to Basement Reno Experts. It not only adds value to a home, increases the size of the property and makes room for additional family members or guests. In addition, it can add character in a bustling city of entertainment and culture, making it more attractive to future buyers. By using Basement Reno Experts, the final touches will make all the difference in the world.

Whether refinishing the basement, bathroom or kitchen, there are several requests common to most projects. These include: Easy Close Cabinets: Using hydraulic technology to take care of those cabinets that stick or won't close properly. Monochromatic Color Schemes: Choosing from a range of black, white and grey themes using high-quality fixtures perfect for this growing trend. Small Kitchen Renovations: Allowing for that sought after open-space kitchen design. Older homes have small bathrooms. In today's world, the bathroom is a refuge for both husband and wife, especially when part of a Master Suite. Through quality fixtures and build options, Basement Finishing Company can turn a drab bathroom into a fabulous escape from the real world. Some popular enhancements include enlarging showers, stand-alone tubs, his and her vanities, and decorative tile.

About Basement Reno Experts

Basement Reno Experts aims to do more than just renovate a house, they want to change lives for the better. They do bathroom, basement, kitchen, and full house renovations. Unlike some companies, they excel at full-house renovations because they have experts in plumbing, electrical, and other specialty services. By contracting with Basement Reno Experts, everyone can benefit from working with true professionals.
