Nourish Beaute Releases New Method Of Controlling Thinning Hair

July 13, 2015

July 13, 2015 -

Health and beauty company Nourish Beaute in Aspen, CO has released a supplement called NOURISH Vitamins that offers a new method of controlling thinning hair. The company wants to set itself apart by offering a natural product that actually addresses hair growth from the inside. This is designed to help people achieve beautiful, thick and healthy hair.

Nourish Beaute's Cynthia Ferrara says, "We wanted to avoid yet another product that is filled with dangerous hormones and chemicals that are absorbed into the bloodstream through the skin. NOURISH Vitamins provide the body with all the necessary nutrients that are required for fast, healthy hair growth. People who lack just one of the essential nutrients will find that they cannot achieve optimal hair growth. Most diets actually lack at least one of the necessary nutrients, which is why this supplement is for anyone suffering from hair loss, thinning or alopecia.?

Alopecia is an illness whereby the body's immune system believes hair follicles to be foreign bodies, attacking and destroying them. It often leaves sufferers with patchy, thin hair and many actually decide to shave it off altogether. However, in cases where dietary deficiencies are present, NOURISH Vitamins could

help people to avoid having to grab the razor and help at least some of their hair grow back.

The product has been very positively reviewed by people who have tried it to date. "I've been using this for a few weeks now and I must say it works," says Tom. "My hair was getting extremely thin on the back of my scalp. My hair has started to grow back, I have received compliments already from my wife and good friend that my hair looks way thicker. Very pleased, will purchase again."

NOURISH Vitamins from Nourish Beaute is different because the company truly takes hair growth seriously focusing on natural healthy hair growth products that are backed by science. They encourage people to sign up to their mailing list to learn more about fast healthy hair growth and sign up to receive deeply discounted products and updates on new product releases.
