July 13, 2015 - PRESSADVANTAGE -

Andatel Grande Patong Phuket Hotel, based in Phuket, Thailand, has announced their half a star rise through online travel company, Booking.com. The hotel will be celebrating their 8 year anniversary in December, and have made several changes over the last 3 years to bring their simple Thai style rooms to a more modern design. The increase of their online ranking has helped show future guests what Andatel has to offer; the hotel explains, "Andatel offers a sense of serenity, with mountain views guests can enjoy from top floors. It also provides a pool view from every room, not to mention the blissful road of Rat-U-Thit, where guests get to enjoy the breeze of Patong."

Some of the changes which the hotel underwent throughout the last 3 years include an increase from 54 to 124 rooms, and the renovation of the exterior to transform the hotel's garden into an Olympic sized swimming pool with additional pool access rooms. Although the patong hotel has seen astounding success since the changes, they have reported that they are not finished with the remodel just yet. Over the next 2 years the company also plans to remove the front portion of the property to make space for the completion of another 100 rooms.

Located along patong beach, the Andatel Grande Patong Phuket Hotel is celebrating more than just 8 years in business and a 4 star victory, they are also celebrating the recent goal of their 100,000th guest to stay at the hotel. They greeted the guest with a refreshing welcome drink, accommodations from the airport, a trip to Phi Phi Island, and a complimentary lunch and dinner. With this kind of service anticipated to special guests, it is no surprise why the Patong has seen such incredible success in the growth of the hotel. Andatel Grande has said the following regarding the hotel and their relationship with guests: "Andatel is not just a hotel where guests come to spend the night and leave. Our goal is to entertain, serve, care and provide an unforgettable and wholesome experience to our guests. All guests are meant to come to us as strangers but then leave as family!"
