

PowerX Optimizer Release Changes The Face Of Stock and Options Trading

March 19, 2019

March 19, 2019 - PRESSADVANTAGE -

Rockwell Trading Services LLC has changed the Stock and Options Trading world since it announced the launch of PowerX Optimizer back in summer 2015. Rockwell Trading Services LLC's revolutionary software was promised to shake things up and 4 years later, the company says that the facts are in.

Previously, with even a passing glance, a person would notice that almost every broker has software that is supposed to help analyze stocks. The Founder and CEO at Rockwell Trading Services LLC, Markus Heitkoetter, makes a point of saying, "Things were always going to change when we launched PowerX Optimizer."

Markus Heitkoetter continues, "Where you'll likely always see our competitors doing the same old thing, we wanted to keep it easy and focus on 3 things which are finding the best stocks and options, suggesting when to enter and when to exit and showing the past performance of the stock if somebody had traded it using the PowerX Optimizer. We do this because we believe most analysis tools are not specific enough when giving suggestions for entries and exits, or they are complicated to use. Ultimately we knew it was going to be of huge benefit to our customers because it takes the guesswork out of trading and makes it simple to find the

best stocks and options to trade - even for complete beginners. We actually hope others follow suit."

Rockwell Trading Services LLC was established in 2005. It has been doing business for more than 14 years and it has always aimed to simplify the complex world of trading and make it easy for everybody who wants to trade stocks or options.

Currently, the closest thing to the PowerX Optimizer is spending many hours trying to analyze stocks using complicated software or the news and easily get overwhelmed and confused. PowerX Optimizer improved on this by finding the best stocks and options to trade in 60 seconds or less with specific recommendations on how to take these trades. This alone was enough to make Rockwell Trading Services LLC's revolutionary software more popular with customers in the stock and options trading space, quickly.

PowerX Optimizer is now available to buy and review at <https://www.PowerXAnalyzer.com>. To find out more, the place to visit is <https://www.PowerXAnalyzer.com>.
