

# Las Vegas Company Announces Top VIP Services For Upcoming Season

*March 21, 2019*

March 21, 2019 - PRESSADVANTAGE -

Vegas Black Card is a concierge company in Las Vegas, Nevada that provides a wide range of services. The company recently stated that with Las Vegas coming up on its busiest season of the year, they are offering bookings and other services designed to ensure that each visitor to the city has the most positive experience possible.

Bennie Munoz, a representative for the company says, "Having the right VIP service is essential for those visiting Las Vegas, particularly for those who have never been here. This can be the difference between having the time of one's life or the most disappointing stay ever. We help by offering bookings and other activities that ensure that visitors enjoy themselves immensely."

Munoz says that anyone who is interested in seeing past events and venues that the company has helped to book for clients can visit them on their Facebook page at <https://www.facebook.com/VegasBlackCardVip/>. He states that the Facebook page offers images and conversation from past clients, as well.

Munoz says that summer gets really busy in Las Vegas and those who are not sure how to book certain events or venues may find themselves without. He states that bookings often need to happen early in order for the client to get to see the entertainment that they want. In addition, Munoz adds that the company can provide luxury cars for those who need them.

"We have everything that one would need to enjoy their visit to Vegas," says Munoz. "Whether on a personal trip, a corporate retreat, bachelor party or any other celebration or occasion, our VIP services will ensure that all of our clients have the time of their lives in Vegas."

Munoz states that Vegas Black Card can help clients by gaining access for them to their chosen venues and VIP events, instead of the clients having to book those events for themselves. He says that the company can also help clients to find the event that they want to attend.

?People just visiting Vegas for the first time may not even know what they want to do,? says Munoz. ?We can help visitors to determine what activities or entertainment they will best enjoy and then book those activities for them.?

Munoz adds that those who are interested in learning more can visit Vegas Black Card online at <https://www.vegasblackcard.com/> for a complete listing of the company?s services and benefits. Munoz says that Las Vegas is considered to be the number one destination for bachelor and bachelorette parties. He states that the company can help to plan these parties, ensuring that all attendees have the best possible time. Custom packages are available which can include a single night out on the town or an entire weekend of casinos, nightclubs, swimming pools, strip clubs, and other activities.

The company also has access to a fleet of luxury sports vehicles for those who want to cruise the strip on their own, or they can book a limousine for those who want the thrill of cruising the strip without actually having to drive themselves. Munoz states that limousines are a very popular way for bachelor and bachelorette party attendees to get around the city in style.

Munoz says that Vegas Black Card can customize a VIP package for individuals or for groups. The company caters to personal visits as well as corporate venues, parties and other celebrations. A complete listing of the packages that are available and their prices can be seen on the company?s website. Those who are interested in customizing a package can contact the company by phone or email or use their online website form for contact. The company states that they offer a wide range of options from nightlife and day clubs to gentlemen?s clubs, party hostesses, Vegas shows and casinos and more. The company provides a range of booking options with various prices for those who are planning a visit to Las Vegas in the future.
