San Diego Holistic Dentist Announces New Website

March 27, 2019

March 27, 2019 - PRESSADVANTAGE -

Dr. Parsi of San Diego Wellness Dentistry is pleased to announce the launch of an all-new website for his holistic dental practice in San Diego. Dr. Parsi is a renowned San Diego dentist with two offices to serve his many dental patients in Rancho San Bernardo and Chula Vista.

San Diego Wellness Dentistry is a holistic dental practice that is dedicated to the health and wellness of the entire body. Holistic dentistry is different from traditional dentistry in that it takes into consideration the fact that oral health is connected to the health of the body as a whole. The health of one?s mouth is dependent on the health of the whole body, and an unhealthy mouth may be an indication of problems elsewhere in the body that require attention. ?In order to keep the teeth and gums healthy, the whole body needs to be kept healthy as well,? confirms Dr. Parsi?s site. Holistic dentistry aims to find treatment options that are safer and healthier to both patients and the environment by making use of natural methods of treating issues.

Holistic dentistry started becoming popular in the early 1880s when it was found that the mercury found in dental fillings can cause complications in the future. The result is an increasing number of individuals seeking out holistic dentists that do not make use of potentially harmful chemicals in their practice. This does not mean, however, that holistic dentistry stands in opposition to traditional dentistry. Holistic dentists occasionally work with traditional dentists to ensure that they are providing the best and safest treatments available. Many holistic dentists used the traditional methods of dentistry before switching to holistic treatments after seeing the benefit of treating the body as a whole as opposed to merely treating a single area.

San Diego Wellness Dentistry states, ?Holistic dentists are conscientious people who look at your situation thoroughly instead of recommending the first quick fix money can buy. They take various factors that may have caused your dental problems into account, look at the overall health of a person, and the underlying cause of the problem instead of aiming to merely fix the existing dilemma.?

San Diego Wellness Dentistry will work with patients to ascertain what the safest, most effective treatment for them is. It is the duty of a holistic dentist to listen closely to what the patient hopes to achieve, and tell them what the best methods for accomplishing their goals are, as well as telling them what the pros and cons of

each method are. ?The best thing about choosing this form of dentistry is that you can be assured that

whatever method you choose, you and your teeth will be safe from toxic materials,? says the San Diego

dentistry.

One of the procedures San Diego Wellness Dentistry is known for is its San Diego Invisalign dentist.

Invisalign offers the teeth-straightening capability of braces without the inconvenience of visible metal bars

across the teeth. Invisalign uses transparent retainers to straighten teeth over time, similar to braces, but

without any of the cons. Dr. Parsi is certified in Invisalign and is happy to provide his expertise to those who

need it.

Dr. Parsi has participated in numerous academic and clinical programs across the country. He is a graduate

of a two year Hands-On Orthodontics Training Program, is also certified in Invisalign, and has been an active

member of the American Dental Association and California Dental Association for over 20 years. Dr. Parsi

has been the architect of thousands of beautiful smiles, and has ensured the health of the entire body in each

case.

The San Diego Wellness Dentistry has been successful in helping many people achieve their oral health

goals. Holistic dentistry has proven to be a worthwhile alternative to traditional dentistry, offering many of the

same things as traditional dentistry, but with fewer risks. The focus on treating the entire body ensures that

those who choose holistic dentistry will leave each appointment with not only their mouth, but their entire

body far healthier than before.

For a San Diego Holistic Dentist with the wellbeing of all their clients in mind at all times, visit Dr. Parsi at San

Diego Wellness Dentistry or take a look at their new website for more information.
