

Telus? Home And Mobile Plans Now Offer Long Distance Add-On For China

March 26, 2019

March 26, 2019 - PRESSADVANTAGE -

Fort Saskatchewan, Alberta based Telus/Cambridge Electronics Incorporated is pleased to announce that both their new and existing Mobile and Home customers are now able to stay connected with their family and friends in China, Hong Kong, and Macau, by simply subscribing to Telus? long distance calling add-on for only \$3 per month.

As noted on the company?s website, the new Telus long distance add-on includes 2,000 minutes of calls and unlimited SMS from Canada to China, Hong Kong, and Macau. ?For a minimal add-on fee, Telus subscribers from Canada can get to enjoy mobile access to the whole of Mainland China, Hong Kong, and Macau, except Taiwan,? says Dan LHeureux from Telus/Cambridge Electronics Incorporated.

LHeureux explains that long distance calls and SMS need to be directed towards eligible phone numbers in China, Hong Kong, and Macau, where customers need to dial each of the country?s code?namely +86 for China, +853 for Hong Kong, and +853 for Macau?to successfully activate the China long distance saver add-on. He also states that one subscriber per BAN is eligible for the offer, clarifying that, ?If there are multiple subscribers on the account, only the subscriber with this plan has the benefit of Canada-China

calling and texting covered under the \$3/month add-on. All other subscribers on the account are rated as per their plans and features.?

Meanwhile, LHeureux also notes that when roaming in China, calls made to phone numbers outside Canada are not included, and are billed at standard roaming and long distance rates. He says that standard data overage rates also apply when a customer goes over their monthly data limit in Canada or the US. ?While extra taxes, standard data, and data overage rates apply, customers can still be covered by Telus Easy Roam when travelling internationally, including the US.?

A census in 2016 showed that Chinese immigrants are the second largest foreign-born group in Canada, and the latest data on Wikipedia showed that around 300,000 Canadians are living, studying, or working in China. With this in mind, LHeureux points out that the China long distance add-on is intended to provide a cost-efficient mobile solution to the growing Chinese community in Canada, as well as Canadian expatriates in China.

Moreover, Telus/Cambridge Electronics Incorporated also offers a wide variety of mobile and wireless solutions to the residents of Fort Saskatchewan, Edmonton, Sherwood Park, Strathcona County, Sturgeon County, Gibbons, Redwater, Bruderheim, Lamont, Smoky Lake, and the surrounding areas. ?Our main goal is to provide you with the best possible mobile experience. With transparent pricing, coast-to-coast 4G network, and the latest in device technology, we ensure that you?ll get the best value-for-money deals in the market,? affirms LHeureux.

He also explains that they give priority to the sales and service of all Telus mobile cellular phones, smartphones, Apple iPhones, mobile internet keys, tablets, and a wide variety of cellular accessories. Furthermore, they provide technical support and servicing for Telus Optik TV and Telus Satellite TV as well.

Those looking for a one-stop-shop for all their tech-related needs may visit Telus/Cambridge Electronics Incorporated?s store in Fort Saskatchewan. Their dedication to providing excellent customer service is reflected in a number of positive reviews received online.

David Wiser, one of their many satisfied customers, says in a Google review, ?The staff of Telus/Cambridge Electronics are professional, friendly, and knowledgeable. I had some issue with my Samsung handphones, and they were able to solve it no time. I also got them to take a look at my Telus Mobility Account, and they made some changes that lowered my bill by \$15 per month. Lastly, their store location in Cornerstone mall in Fort Saskatchewan is very convenient and easy to find. I highly recommend them for any tech related issues.?

Mitchell Carswell, another satisfied customer, says, ?I?ve had a really old plan with Telus that worked great

for all my needs. However, I was told that I need to update my plan, so I went to Telus/Cambridge Electronics at the Cornerstone mall. I was really surprised to walk out of the store with a new phone?but with the same mobile plan, and that was made possible by the store owner who truly went above and beyond to meet my needs.?
