Fast Eddys Keys Express Offers Free Home Security Check

March 29, 2019

March 29, 2019 -
Fast Eddys Keys Express, a locksmith company based in Minneapolis, MN, has warned that with the start of spring, burglars are also becoming more active and are in search of homes to break into. Therefore, the company is offering a free home security check. Those interested can contact Fast Eddys Keys Express so that they can send an expert to perform a security check to ensure that the home and family are secure.

Edward Mann, also known as Fast Eddy, says, ?Spring is here and people are out and about. So are burglars, who take advantage of the great weather and your being out and about to break into your home and steal your things. Best thing to do is call on Fast Eddys Keys Express for a free home security check, and get your home and family secure.?

The most important parts of the home to be secured are, of course, the doors. Many homes have well secured front doors but oftentimes they forget about the other doors. That is why it is essential to have an expert conduct a home security check. This will identify those points of vulnerability within the home so that homeowners may be able to do something about them. For instance, certain doors may already be too old and too easy to break down. Or there may be a need to replace old dead bolt locks, which could easily be dismantled by burglars and other criminals.

Fast Eddy explains, ?We service residential and commercial. Some doors get old and need an upgrade to make them last longer. Sometimes it?s the locks on doors that need attention, other times it?s a wrap around after a door was kicked in. And or a better strike plate and hinges.?

The locksmith company also installs, repairs, and adjusts door closers. Easy exit is also important for members of the family. For instance, if a burglar or some other criminal had gained entry into the home, there may be a need for family members to escape out of the house in order to get out of danger. However, people may be at risk if easy exit from the home is prevented by a faulty door opener or lock. This is why all parts of the door, such as the locks, door closers, etc., are all working properly. And, of course, this is also true with all the windows. All windows should have reliable locks, closers, hinges, and other important parts.

It is the role of the Fast Eddys Keys Express expert to ensure that all doors and windows of the home are working properly and that they have the necessary locks and security hardware. The company can provide professional installation and/or repair of such hardware. Fast Eddy would also like to point out that something as simple as the length of the screws fastening the strike plate to the door or wall can mean a significant difference in security. He suggests that homeowners spend a bit more in ensuring that all of these important components are of the right size and quality, and are properly installed to ensure peace of mind and the security of loved ones.

Fast Eddys Keys Express is a family-owned and operated business that has been offering dependable and friendly service for more than 30 years. Fast Eddy founded the business in 1991. He was not known as Fast Eddy then. It was Johnny Gilbert who wrote the Motoring section of the Minneapolis Star and Tribune who called him ?Fast Eddy? after Edward Mann rescued him from being locked out of his car. Fast Eddy was able to unlock his car after Johnny had locked his keys inside. He experienced a drastic rise in the number of customers after that and that was when he changed his business? name to Fast Eddys Keys Express.

Those who need more information or want to replace old locks to boost the security of their home can contact Fast Eddys Keys Express through their website or by phone.
