

Phoenix Treasures Announces That The Highest Quality French Press Coffee Maker Will Ship Soon

August 19, 2015

August 19, 2015 - PRESSADVANTAGE -

Phoenix Treasures LLC, based in Cape Coral, FL, is proud to announce that their French press coffee makers are ready to ship soon. Customers are encouraged to follow Phoenix Treasures developer, Robert King, on Facebook, www.facebook.com/profile.php?id=100006205512735, to remain up to date about the actual launch date.

Robert King from Phoenix Treasures LLC says: "Our French press coffee makers will enable people to have a perfect cup of coffee. Thanks to this French press, people can experiment with roasts and beans to create something that is just to their liking. In effect, we encourage everyone to become a barista in their own home."

A French press coffee maker, or cafetiere, is very easy to use. The user will simply put some ground coffee in the bottom of the coffee maker, add boiling water and slowly press the plunger down. The result is a tasty, aromatic coffee. Many people prefer this type of coffee over filter coffee for a number of different reasons. One of these reasons is the fact that the coffee is quickly made and therefore stays hot. Furthermore, it enables people to make as much coffee as they actually want to drink, rather than having to waste half a pot.

"Using a French press coffee maker is a great way to have the tastiest coffee," adds Robert King, whose Twitter profile can be seen on <https://twitter.com/rking7727>. "You can place it on the table after a dinner party, for instance, and everybody can enjoy the smell of freshly made coffee at the same time."

Once launched, Phoenix Treasures LLC will also be very active on Pinterest. They intend to add photographs and other pieces of information on how to best use the cafetiere. The Pinterest page at <https://www.pinterest.com/rob7727/> will also include hints and tips to help people get the most out of their French press. Coffee, according to Phoenix Treasures, is a drink that entices all six of the senses. It tastes great, the heat of the cup feels great, it smells wonderful, it looks dark and romantic and, finally, the sound of a cup being poured is the sound of coming home.
