

The Chimney Pro's Expands Into Larger Location

July 10, 2015

July 10, 2015 - PRESSADVANTAGE -

Chimney cleaning and repair experts, The Chimney Pro's Inc of Minnesota, occupying an office space in Century Office Park, have recently moved into a new suite, nearly doubling in size from their original space.

The Chimney Pro's Inc of Minnesota has been a leader in chimney maintenance and cleaning, serving home and business owners in the Twin Cities and Western Wisconsin area for more than 25 years. The Pros offer chimney cleaning, chimney inspections, fireplace cleaning, fireplace inspections, repair and gas fireplace installations services.

Chimney cleaning is necessary for both health and safety reasons and is recommended twice per year. Regular chimney cleaning will help to keep your home or business free of allergens and the buildup of dirt and creosote will also be prevented.

Dirt can block your chimney's flue, causing smoke to back up into your home and make your fireplace noxious. Excessive creosote can potentially ignite and cause an uncontrolled fire hazard. Since creosote is so flammable, any kind of buildup is dangerous. Also, leaves, branches, and animal nests are also likely to cause a fire.

Regular chimney maintenance also helps prevent water from entering your home and causing damage. Cracks in a chimney's liner can lead to discoloration of your chimney's exterior and let smoke and odor enter indoors. These can be prevented with regular maintenance.

The Chimney Pro's staff are certified by the Chimney Safety Institute of America (CSIA) and is member of The Chimney Sweep Guild, and licensed by the great State of Minnesota. Chimney Pro employees regularly attend advanced training courses to provide the most current service and techniques possible.

"When you hire The Chimney Pro's you can rest assured you are getting the best possible service at a fair and ethical price. Impeccable customer service and attention to detail continue to be at the core of our services," says Troy Marx of The Chimney Pro's.

The Chimney Pro's have recently begun working with Nawkaw Industries for their brick-staining techniques. Finding matching brick for chimney repair is sometimes impossible, especially for older homes, but with Nawkaw, The Chimney Pro's will build your brick project with a neutral color brick, then have Nawkaw come in after completion to match the new brick to your existing brick. They can even stain the mortar to match existing mortar.

Nawkaw is the world's premiere stainer of masonry and concrete. Nawkaw began the masonry staining process in 1984 and their products are in use around the world and have been proven under extreme conditions, from desert heat to sub-zero cold. They provide a permanent solution for coloring masonry and concrete, that won't peel or fade and is guaranteed for 25 years.
