

Information On How To Fix A Spy Camera Pen Released On Youtube By Ron's Amazing Products

July 18, 2015

July 18, 2015 - PRESSADVANTAGE -

Catonsville, Maryland company Ron's Amazing Products has released a new YouTube video on their channel showing people how to fix a spy camera pen. The video can be viewed at <http://www.youtube.com/watch?v=fTpHJ8L7GAo>. The video specifically looks at how a pen camera should be formatted.

Ron's Amazing Products released this to help their customers with some basic troubleshooting.

"Our pen camera is one of our bestselling products at present, in part because it is so easy to use," says Ronald Hoff from Ron's Amazing Products. "However, even the easiest to use products sometimes need a few instructions. This is what we have aimed to offer with our latest YouTube video." The guide on the video is very easy to understand. It provides step by step instructions on what to do from the moment the pen camera is hooked up to a computer, to the moment it is ready to use again. Formatting is very easy to do, and clarity is provided on which buttons to press and click.

The spy camera, as can be seen on <http://ronsamazingproducts.com>, has recently been upgraded. It now

offers premium HD effect DVR. The pen comes with an 8GB built in memory. Additionally, it has a high quality wide angle lens. This allows for the production of great videos in high resolution. Best of all, the camera looks exactly like a regular pen.

Ron's Amazing Products frequently releases videos on how to best use their products and various other topics. They have now created a full playlist on <http://www.youtube.com/user/RonsAmazingProducts>, which shows other troubleshooting and how to videos.

"We want to make sure that people can get the most out of any product they purchase through us," adds Ronald Hoff. "Hence, we regularly create new videos. For our spy pen camera, for instance, we have information on how to use it, how to operate it, how to charge it and how to handle it, to name but a few."

People are encouraged to check out the videos and to comment with their own experiences and ideas or suggestions.
