

The Plastic Surgeon Miami Welcomes New Patients To Their Clinic In Miramar, FL

April 08, 2019

April 08, 2019 - PRESSADVANTAGE -

The Plastic Surgeon Miami recently announced that they are pleased to invite new patients to visit their modern and state of the art facility in Miramar, Florida. The practice specializes in cosmetic surgeries and other procedures, including breast augmentation and reduction, breast lift, abdominoplasty, liposuction, facelift, eyelid surgery, and botox injections, among others.

"We understand that there are times when many people feel like their physical appearance does not accurately reflect the person they are within. Fortunately, plastic surgery procedures nowadays are becoming more accessible and affordable as well. While cosmetic procedures do not stop the aging process, it can absolutely boost self-confidence and help people to express themselves better," says Dr. Ramiro Morales, the practice's Chief Surgeon. He explains that the world can be very quick to judge, and if altering one's appearance can improve someone's life for the better, then undergoing plastic surgery is a worthy undertaking.

As noted on the company's website at <http://theplasticsurgeonmiami.com/>, Dr. Morales combines his extensive knowledge, experience, and the highest of medical standards to achieve the most natural-looking

results possible. "Whether you are interested in refining your appearance or enhancing your physique, our quality cosmetic surgery practice ensures that you are in quality care and exceptional hands," he says.

Meanwhile, according to the latest data from the American Society of Plastic Surgeons (ASPS), nearly 18 million people underwent surgical and minimally invasive cosmetic procedures in the United States in 2018. The ASPS reported that the top five procedures in 2018 include breast augmentation (313,735 procedures), liposuction (258,558 procedures), nose reshaping (213,780 procedures), eyelid surgery (206,529 procedures), and the tummy tuck (130,081 procedures). In addition, data also show that three out of the five surgical procedures in the past year focused on the body, and the number of liposuction procedures increased by more than 12,000 procedures while breast augmentations similarly increased by more than 13,000 procedures.

Furthermore, a recent online study enumerated some of the major reasons why people choose to undergo plastic surgeries. Primarily, cosmetic procedures combat the effects of aging on the body. Depending on the type of procedure and the amount of work to be done, anything can be achieved—from a very subtle change to something very dramatic. Secondly, women often seek body enhancement procedures after they give birth. Pregnancy can take its toll on a woman's body, and breast augmentation and tummy tuck procedures help new moms instantly get back in shape.

In addition, cosmetic procedures like skin tightening and tummy tucks are also beneficial to those who have lost a great deal of body weight. These procedures remove excess skin and tissues to tighten up any loose muscle structure. Lastly, there are some instances where carrying out plastic surgery is medically necessary. These situations include reconstructing a breast after a mastectomy, reshaping back a body part that was deformed or removed due to accidents, and more.

Those looking for a trusted plastic surgeon in Miami may schedule an appointment with Dr. Morales. He is one of the few plastic surgeons in the area who possesses high-level qualifications and experience in the field of plastic surgery. He retains both his Surgery Board Certification and his Plastic Surgery Board Certification, the latter field of which he decided to exclusively specialize in. Furthermore, his quality workmanship is recognized by many of his previous patients who are very happy and satisfied with their results.

One satisfied client said, "I was pretty scared to do the surgery, which is why I went to five different appointments and doctor consultations. Eventually, I chose The Plastic Surgeon Miami because their staff are great and very professional. Dr. Morales also made me feel very safe and comfortable throughout the whole process. Most importantly, I was very happy with the results. I highly recommend Dr. Morales and his team from The Plastic Surgeon Miami."

Another client, said, "From the very first consultation up to the operating table, Dr. Morales has been nothing but exceptional. He is very friendly and professional, and his bedside manner is truly amazing. I was very pleased with the results of my surgery, and should I decide to do another one in the future, Dr. Morales will always be my first choice."
