

Mishawaka Assisted Living And Memory Care Announces New Team Member

April 16, 2019

April 16, 2019 - PRESSADVANTAGE -

Mishawaka based Assisted Living and Memory Care facility, Heritage Point, is pleased to announce the addition of Roger Garmendia to their executive team. Garmendia comes equipped with years of experience in the industry, having worked in nearly every capacity in the memory care industry. He is a certified nurse's assistant, activities aide, a qualified memory care professional, a life safety specialist, environmental services director, and administrative assistant. He is also a holder of a Health Facility Administrator's license and has served in a number of executive positions in memory care facilities.

Through his numerous and varied experiences, Garmendia has become a compassionate leader with a solid understanding of the importance of each employee, and a true understanding of the value of each individual resident at Heritage Point.

In his new role at Heritage Point, Garmendia will provide assistance to residents, develop and maintain policies meant to promote quality care, review all the new hires to ensure that only the best and most qualified staff join the team while also ensuring they receive adequate training, serve as liaison between patients and their families, and ensure that the organization meets all the standards required at the federal,

state, and local level.

"I really believe that those who experience dementia in retirement can lead just as fulfilling a retirement as those who don't, which is why I've chosen to spend my career in memory care," says Garmendia. "Heritage Point is a compassionate and well-known memory care facility in Mishawaka and a natural next step in my career. It's both a pleasure and an honor to join the prestigious team of caregivers and support staff in such a renowned facility. My first objective is simply to get to know each resident so I can best serve them moving forward." He added, "If anybody would like to reach me, I plan to be an available resource for the community, our residents, their friends, and family members."

Heritage Point offers both assisted living and memory care services to the residents of Mishawaka and its surrounding areas. The facility takes pride in offering all-inclusive living for its residents, something that would normally be hard to find. Monthly rent at the facility includes 24/7 dining, weekly housekeeping services, utilities, maintenance, access to the gym, local transportation, 24/7 staffing, and access to a wide variety of daily activities and programs. Modern memory care programs also incorporate specialty program designs to promote better quality of life for patients suffering from dementia.

Each member of staff at the memory care facility receives extensive training on the physical, mental, emotional, and spiritual needs of residents experiencing the cognitive decline associated with dementia. This ensures that they are fully equipped to handle any situation that may involve a patient with this illness. The staff are trained to make the hard-earned retirement years of any patient worth living, even with dementia.

"Heritage Point is not just a memory care facility, we are a memory care community. It is a warm, welcoming senior community for those in need of assisted living, transitional assisted living, or memory care," affirms the company. With a combination of person-centered care and an extensive wellness program that encompasses the key components of health and wellness, Heritage Point enables each patient to live life to the fullest in a safe and secure environment. Residents of the care facility receive person-centered care with care options ranging from dressing assistance and personal hygiene, to medication and continence management.

Heritage Point is part of the Sunshine Retirement Living group of retirement homes. Sunshine Retirement Living manages nearly two dozen retirement communities across the country. Through their full range of services in independent and assisted living, as well as memory care communities, Sunshine Retirement Living promotes independence, confidence, and community among their residents and hires only the best staff to ensure their goals are met and their residents stay happy.
