

Potential Risks Of Eyelash Extensions; Infinit Lash Products Gives You The Scoop

April 09, 2019

April 09, 2019 - PRESSADVANTAGE -

Del Mar, CA based Infinit Lash Products has launched several promotions for a variety of products to coincide with their latest blog post. The informative post highlights both the advantages and risks of eyelash extensions, which helps demystify the experience for anyone thinking of trying them for the first time as well as those who have not had the experience that they expected.

Tasha Land, founder of Infinit Lash Products, said, "Some people who use unlicensed beauty therapists to save money on eyelash extensions can find that they have an irritation, or an allergic reaction to the chemicals in the adhesive or to unstantized tools." Read the full article here: [the risks of eyelash extensions](#).

Most women wish their eyelashes were longer, fuller, or both. There is no doubt that mascara can help temporarily, and most who use "growth serums" never get the va-va-voom look they really desire—the kind they see on many celebs—even those which look impossibly natural.

Eyelash extensions bring many benefits to the table, including not having to use mascara every day and then cleaning it off each night. Many women also despise the risk of having it run each day, and this is especially

irritating on holidays spent dipping in and out of the water. However, they may be confused whether eyelash extensions could fall out in the water.

The Infinit Volume Plus glue for eyelash extensions, which is currently being offered with up to a 48% discount on Amazon, has a record drying time of one to two seconds, allowing eyelash professionals to service their clients much faster and more efficiently. Volume eyelash extensions need to have a quick drying eyelash extension glue in order to maintain consistency in the volume fans. This glue has been observed to be best used for Volume lashes but it can also be used for Classic lashes. "We want eyelash artists to have the best tools to create the best looks their client's desire, and our adhesives and techniques make a huge difference," said Land.

On the Amazon product page, the Infinit Lash Products glue for eyelash extensions has already received over 200 reviews with most of them being 5/5 stars. One Amazon customer said, "I've been a professional lash artist for over four years full time, and I love this adhesive. It's easy to work with, fast drying (but not so fast that you cannot make a correction if necessary) and has a great retention. I've been using it on my clients for nine months now and I've only had one client get a 'reaction.' However, we are now fairly sure it was due to her seasonal allergies and unrelated to the adhesive because now she has given it another go and is doing fine."

Land was recently featured on Press Advantage for providing advice to professional eyelash technicians on how to choose the best eyelash extension glue. She noted that, "Everyone wants long, full, glamorous lashes without the hassle of waiting for growth serums to work or applying strip lashes or multiple coats of mascara. With the right lash extension glue, lashes and application, lashes can last for seven to eight weeks."

Another Amazon customer said, "This glue changed my life! I have been lashing for six years. I started using this glue about six months ago and, when I did, my business blew up. I am no longer even able to take any new clients; I am so busy! This glue truly changed my life, and I'm not being the slightest bit dramatic. I am in East Texas and keep my humidity at 40-55% with and without humidity control, depending on the weather. This glue performs its best in this humidity range. I cannot say enough good things about this glue. The consistency of the glue is perfect, my clients come in for their two weeks fill and all I have to do is fill the new natural lashes that have come in! I can't tell you how many glues I have tried and, honestly, I think I have refrained from leaving this review because I don't want it to sell out. I better stock up!?"

More information regarding Infinit Lash Products and their blog articles can be found on their website. Interested customers may also connect with them through their official social media accounts on Facebook, Twitter, YouTube, and Instagram to learn more about their latest announcements and promotions.
